Introduction

This report presents the monthly performance against:

- Agreed population health and well-being outcome measures as outlined in the Draft Programme for Government (2016-21),
- Plan targets and indicators of performance drawn from the Health and Social Care Draft Commissioning Plan 2017/18

The report is divided into two sections:

- Section 1: **SET Outcomes**. This section includes performance against; PfG indicators; Department of Health indicators and internally defined directorate level Outcomes and Key Performance Indicators (KPIs) including Safety, Quality and Experience (SQE).

A dashboard is provided on a bi-annual basis to demonstrate the Trust's contribution to the achievement of the following PfG Outcomes:

- *We enjoy long, healthy active lives*
- *We care for others and help those in need*
- *We give our children and young people the best start in life*
- *We have a more equal society*
- *We have a safe community where we respect the law and each other*

We will provide an update on a bi-annual basis. Full report can be found at <https://view.pagetiger.com/pfg-outcomes/improving-outcomes>

Safety, Quality and Experience performance is reported under this section on a monthly basis under the Department of Health led PfG outcome, We live long, health, active lives.

- Section 2: Performance against commissioning plan targets. This section contains separate sections for each of the directorates. The first few pages give a dashboard of performance;
 - Highlight scores against each of the Commissioning Plan targets
 - Performance against each of the HSC Indicators of Performance
 - Performance against each of the directorate KPIs

This is followed by a detailed breakdown of performance against each of the Commissioning Plan targets with, where appropriate, a 12 month performance trend analysis. The end of this section contains performance improvement trajectories.

Glossary of Terms

AH	Ards Hospital	IP	Inpatient
AHP	Allied Health Professional	IP&C	Infection Prevention & Control
ASD	Autistic Spectrum Disorder	KPI	Key Performance Indicator
BH	Bangor Hospital	KSF	Key Skills Framework
BHSCT	Belfast Trust	LVH	Lagan Valley Hospital
C Diff	Clostridium Difficile	MPD	Monitored Patient Days
C Section	Caesarean Section	MRSA	Methicillin Resistant Staphylococcus Aureus
CAUTI	Catheter Associated Urinary Tract Infection	MSS	Manager Self Service (in relation to HRPTS)
CBYL	Card Before You Leave	MUST	Malnutrition Universal Screening Tool
CCU	Coronary Care Unit	NICAN	Northern Ireland Cancer Network
CHS	Child Health System	NICE	National Institute for Health and Clinical Excellence

CNA	Could Not Attend (eg at a clinic)	OP	Outpatient
DC	Day Case	OT	Occupational Therapy
DH	Downe Hospital	PAS	Patient Administration System
DNA	Did Not Attend (eg at a clinic)	PC&OP	Primary Care & Older People
ED	Emergency Department	PDP	Personal Development Plan
EMT	Executive Management Team	PfA	Priorities for Action
		PfG	Programme for Government
		PMSID	Performance Management & Service Improvement Directorate (at Health & Social Care Board)
ERCP	Endoscopic Retrograde Cholangiopancreatography		
ESS	Employee Self Service (in relation to HRPTS)	RAMI	Risk Adjusted Mortality Index
FIT	Family Intervention Team	SET	South Eastern Trust
FOI	Freedom of Information	S<	Speech & Language Therapy
HCAI	Health Care Acquired Infection	SQE	Safety, Quality and Experience
HR	Human Resources	SSI	Surgical Site Infection
HRMS	Human Resource Management System	TDP	Trust Delivery Plan
HRPTS	Human Resources, Payroll, Travel & Subsistence	UH	Ulster Hospital
HSCB	Health & Social Care Board	VAP	Ventilator Associated Pneumonia
HSMR	Hospital Standardised Mortality Ratios	VTE	Venous Thromboembolism
ICU	Intensive Care Unit	W&CH	Women and Child Health
liP	Investors in People	WHO	World Health Organisation
		WLI	Waiting List Initiative

SECTION 1
SET OUTCOMES

Programme for Government Framework

PfG Outcome: We enjoy long, healthy, active lives

Indicators

PfG:

% population with GHQ12 scores ≥ 4

Number of adults receiving social care services at home or self-directed support for social care as a % of the total number of adults needing care

% people who are satisfied with Health and Social Care

Preventable mortality

Healthy life expectancy at birth

Confidence of the population aged 60 years+ (as measured by self-efficacy)

Gap between highest and lowest deprivation quintile in health life expectancy at birth

DoH:

Improving the health of our people

Improving the quality and experience of healthcare

Ensuring the sustainability of our services

Supporting and empowering staff

Trust:

Reduce preventable deaths

Reduce unplanned Hospital admissions

Increase independent living

Decrease mood and anxiety prescriptions

Primary Measures

Recovery College

Emergency admissions rate

Improve support for people with care needs The number of adults receiving personal care at home or direct payments for personal care, as a percentage of the total number of adults needing care

Improve mental wellbeing

Improve end of life care - Percentage of the last 6 months of life which are spent at home or in a community setting

SQE Performance

Make Contact Count

Health Promotion

Age Friendly Societies

Falls Prevention

Smoking Cessation

Enhanced Care at Home

Ambulatory Care Hubs

SDS

Memory Clinics

SAFE & EFFECTIVE CARE - All targets reported one month in arrears. Figures correct as of 04/09/2019

SAFE AND EFFECTIVE CARE

August 2019

SAFE & EFFECTIVE CARE - All targets reported one month in arrears. Figures correct as of 04/09/2019

We all know that measurement is integral to the improvement methodology in healthcare but how do we know whether or not we have actually made a difference and if the care being delivered is getting better, staying the same or getting worse each year? What we do not always take into account is the variation in the way that services are delivered – by individual departments, people and even different types of equipment. All of these differences in the way things are done lead to differences in the way services are delivered.

The main aims of using Statistical Process Control (SPC) charts are to understand what is 'different' and what the 'norm' is. By using these charts, we can then understand where the focus of work needs to be concentrated in order to make a difference. We can also use SPC charts to determine if an improvement is actually improving a process and also use them to 'predict' statistically whether a process is 'capable' of meeting a target. SPC charts are therefore used:

- As way of demonstrating and thinking about variation
- As simple tool for analysing data – measurement for improvement
- As a tool to help make better decisions - easy and sustainable to use

SAFE & EFFECTIVE CARE - All targets reported one month in arrears. Figures correct as of 04/09/2019

Description

The score is aggregated from 6 parameters that should be routinely measured in hospital and recorded on the clinical chart. The aggregated score will then inform the appropriate response required and the frequency by which the next set of observations should be carried out. Compliance with this process is measured across all wards each month through a random sample of 10 patient charts in each area.

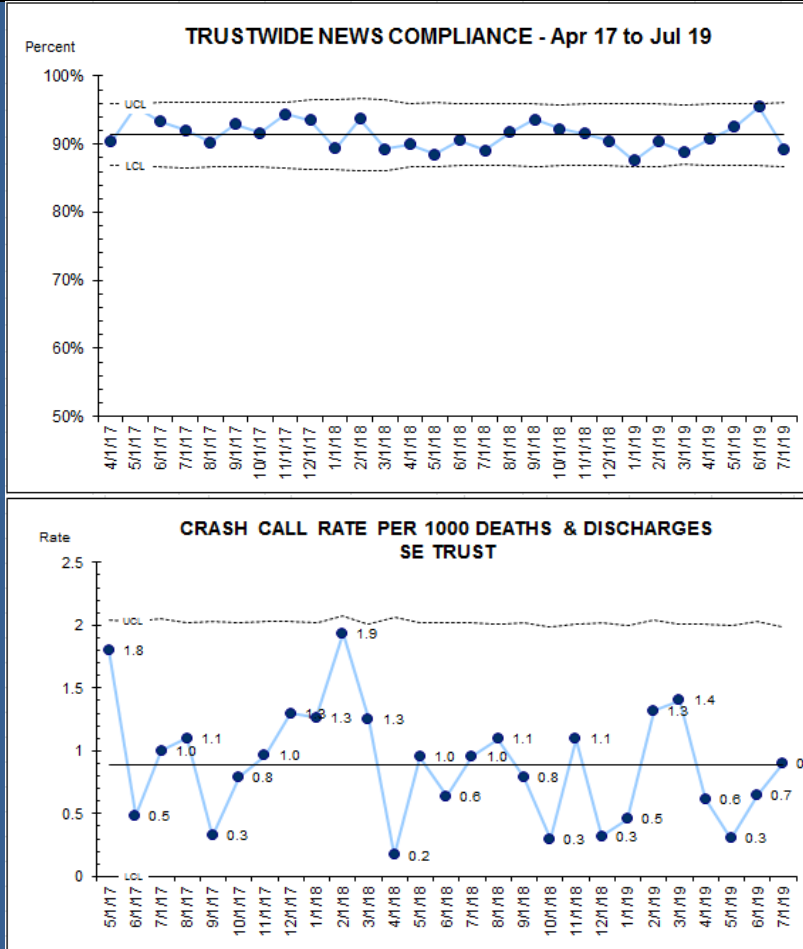

Aggregate position

All cardiac arrests are reported to the monthly M&M meetings for discussion.

On the launch of the regional NEWS 2 further training will be rolled out and staff are currently being directed to RCP (ocbmedia) e-learning programme.

1 wards compliance reduced to 30% in July causing a fall in overall compliance

Trend

Variation

Lowest compliance questions: Part 1: Evidence of appropriate action (90%) and Part 2: If NEWS score is above 5, is there evidence of actions taken (92%)

2016/17
Average compliance 88%

2017/18
Average compliance 93%

2018/19
Average compliance 90%

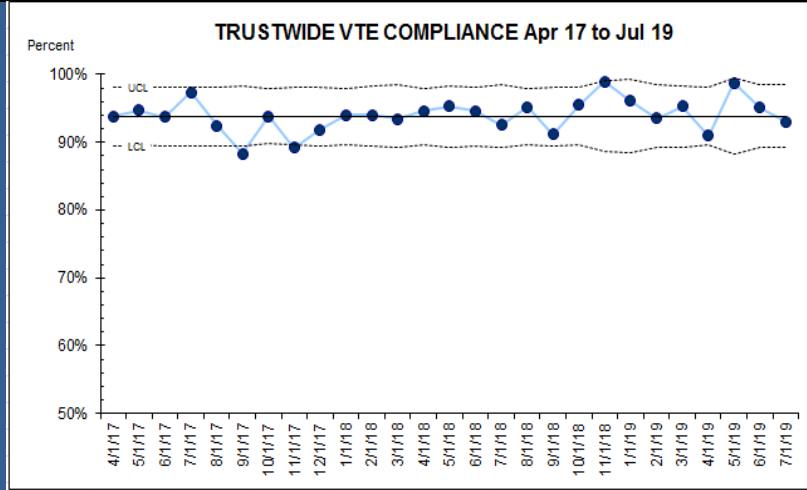

SAFE & EFFECTIVE CARE - All targets reported one month in arrears. Figures correct as of 04/09/2019

Description

Trusts will sustain 95% compliance with VTE risk assessment across all adult inpatient hospital wards throughout 2019/20

Aggregate position

Trend

Variation

2016/17
Average compliance 91%

2017/18
Average compliance 93%

2018/19
Average compliance 95%

SAFE & EFFECTIVE CARE - All targets reported one month in arrears. Figures correct as of 04/09/2019

Description

Falls prevention requires a wide range of interventions and the FallSafe bundle aims to help acute adult hospital wards to carefully assess patients' risk of falling, and introduce simple, but effective and evidence-based measures to prevent falls in the future. The bundle assesses all patients in part A and those patients 65+ years and patients aged 50-64 years who are judged to be at higher risk of falling because of an underlying condition in part B.

Aggregate position

Q1 2019/20 Falls rate is not yet available from the PHA however there has been a reduction in the number of falls for the Trust in Q1

July 2019 seen 5 wards with a Falls compliance figure of under 30%.

Safe and Effective care are working closely with the Trust falls coordinator, falls champions and Strategic & Capital Development Manager to implement measures to reduce the falls in the IWB. Falls improvement group has been established within medical directorate ward 3a and ward 3b will be pilot wards as part of QI Falls project. Further work is also being progressed in the Surgical Directorate to identify initiatives to reduce falls.

Trend

Variation

Lowest compliance questions:
Part A: 'Urinalysis performed' 87%
Part B: 'Lying and Standing Blood Pressure' 88%

2016/17
Average compliance 75%

2017/18
Average compliance 82%

2018/19
Average compliance 81%

Description

From April 2016 measure the Incidents of pressure ulcers (grade 3 & 4) occurring in all adult inpatient wards & the number of those which were avoidable

Trusts will monitor and provide reports on bundle compliance and the rate of pressure ulcers per 1,000 bed days

Aggregate position

Q1 pressure ulcer figures –

Stage 2 or above: 50

Stage 3/4: 11

DTI: 2

Avoidable: 2

Pressure Ulcer Rate for Q1 2019/20 is not yet available from the PHA

Trend

Variation

Lowest compliance question: 'Patient Repositioned and/or mobilised as per regime 97%

2016/17
Average compliance 83%

2017/18
Average compliance 86%

2018/19
Average compliance 88%

PRESSURE ULCER RATE PER 1000 BED DAYS AS PER THE PHA

Description	Aggregate position	Trend	Variation
<p>Good nutrition is fundamental for health, healing and recovery from illness and injury. Nutritional screening is a first-line process of identifying patients who are already malnourished or at risk of becoming so and should be undertaken by the nurses on patient admission to hospital.</p>	<p>Compliance with MUST screening continues to be monitored across all adult acute inpatient areas, acute mental health and dementia units.</p>		<p>2016/17 Average compliance 93%</p> <p>2017/18 Average compliance 97%</p> <p>2018/19 Average compliance 95%</p>

Description	Aggregate position	Trend	Variation
<p>95% compliance with fully completing medication kardexes (i.e. no blanks)</p> <p>The omitted medicines regional group has been formed to set direction and inform strategy on omitted and delayed medicines for adults in patient wards.</p>	<p>There has been a steady increase in compliance.</p> <p>The regional working group agreed each trust would test the safety thermometer as a proposed regional measurement tool.</p> <p>Safety thermometer has been tested on ward 5b and transition ward UHD . This work is being taken forward on a regional basis.</p>		<p>2016/17 Average compliance 90%</p> <p>2017/18 Average compliance 92%</p> <p>2018/19 Average compliance 91%</p>

			Q1 18/19	Q2 18/19	Q3 18/19	Q4 18/19	Q1 19/20	
Environmental Cleanliness	To at least meet the regional cleanliness target score of 90%	The Policy for The Provision and Management of Cleaning Services issued by the DHSSPS in January 2015 requires Very High Risk and High Risk Scores to be reported for Cleaning and Nursing only. As a consequence of removing estate condition issues, the acceptable level of cleanliness in Departmental Audits which was set at 85% in Cleanliness Matters is increased to 90%. The removal of the Estates Services scores has contributed to the observed increase in overall scores. Overall the Trust continues to meet this higher threshold and continues to exceed its own internal target for all facilities, although individual facilities may on occasions not meet this target. Financial Break Even	South Eastern Trust must deliver financial breakeven by 31 st March 2019	Trust is forecasting a year end breakeven position, The Trust Delivery Plan (TDP) details measures on how the Trust will address an identified deficit of £3.6m, due to emerging pressures in 2018-19. The plan is reliant on the Trust identifying £0.75m in savings over the second half of the financial year. The Trust has made progress in addressing some of the shortfall. However a deficit of £0.55m remains. The Trust will continue to identify further savings/cost control measures of this value by year-end
