Contents

<u>Title</u>	<u>Page</u>
Introduction	3
2020/2021 Standards and Targets	4
Glossary of Terms	18

Introduction

This report presents the monthly Corporate Performance Information, in the categories of:

- * Commissioning Plan Direction Ministerial Targets as per the HSC Commissioning Plan Direction (NI) 2018
- Supporting activity and profiles

Actual performance is outlined as well as the level of progress against the target. This progress is presented using the red, amber, green format (RAG). Charts are included to highlight trends in performance. In addition arrow indicators are included to assess changing performance as follows:

	RAG Rating								
Red Not achieving Target									
Amber	Almost Achieving Target								
Green	Achieving Target								

Trend on previous month (TOPM)	
Performance Improving	1
Performance Decreasing	•
Performance Static	•

The direction of the arrows indicates whether performance has improved, deteriorated or stayed the same since the previous reporting period.

The information figures are provided at a point in time and are subject to validation. This may mean the figures for previous months have to be adjusted. Where this results in a material change to information previously reported, this will be flagged up to Trust Board.

2020/2021 Ministerial Standards and Targets

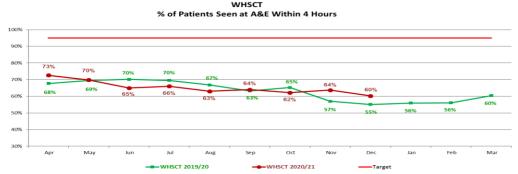

Title	Target	Comments / Actions	Nov-20	Dec-20	Trend	Cumulative Position	Trend / Activity Analysis
Smoking Cessation	Target 1.1: By March 2021, in line with the departments ten year Tobacco Control Strategy, to reduce the proportion of 11-16 years old children who smoke to 3%; of adults who smoke to 15%; and of pregnant women to 9%.	Target reported by PHA.					
Obesity	Target 1.2: By March 2022, reduce the level of obesity by 4 percentage points and overweight and obesity by 3 percentage points for adults and by 3 percentage points and 2 percentage points for children.	Target reported by PHA.					
Breastfeeding	Target 1.3: By March 2021, through continued promotion of breastfeeding to increase the percentage of infants breastfed, (i) from birth, and (ii) at 6 months. This is an important element in the delivery of the Breastfeeding Strategy Objectives for achievement by March 2025.	Awaiting confirmation of baseline and technical guidance on how this will be reported					
Healthy Places	Target 1.4: By March 2021, establish a minimum of 2 "Healthy Places" demonstration programmes, working with General Practice and partners across community, voluntary and statutory organisations.						
Children in Care	Target 1.10 (a): By March 2021, the proportion of children in care for 12 months or longer with no placement change is at least 85%.	Target 1.10 (a) reported at year end in line with the delegated statutory functions report.					Target 1.10(a) reported at year end in line with delegated statutory functions report.
	Target 1.10 (b): By March 2021, 90% of children, who are adopted from care, are adopted within a three year time frame (from date of last admission).	Target 1.10 (b) will only be reported on a yearly basis through the electronic AD1 return. CIB are looking to collect this 6 monthly but no processes are in place yet.					Target 1.10(b) will be reported on a yearly basis in line with CIB reporting.

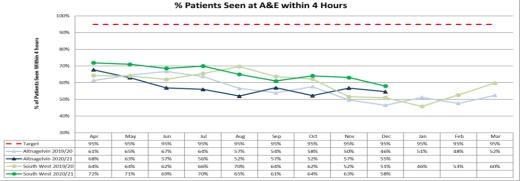

Title	Target	Comments / Actions			Trend		Trend / Activity Analysis		
Delivering Care Framework	Target 2.1: By March 2021 all HSC Trusts should have fully implemented phases 2, 3, and 4 of Delivering Care, to ensure safe and sustainable nurse staffing levels across all medical and surgical wards, emergency departments, health visiting and district nursing services.	Phase 1: Delivery Care Framework: Full implementation has not been sustained due to current level of vacancies.					Achieving this target is dependent on HSCB making appropriate investment in Nurse staffing.		
Title	Target	Comments / Actions	Target Profile	ACTUAL	Trend	Variance	Trend / Activity Analysis		
	Target 2.3: By 31 March 2021 secure an aggregate reduction of XX% (to be confirmed) of Escheric hia coli, Klebsiella spp. and Pseudomonas aeruginosa bloodstream infections acquired after two days of hospital admission, compared to 20XX/XX	HCAGNBSI WHSCT 2020/21 Target Maximum =							
Healthcare Acquired Infections	Target 2.4: In the year to March 2021 the Public Health Agency and the Trusts should secure a reduction of XX% in the total number of in-patient episodes of Clostridium Difficile infection in patients aged 2 years	MRSA WHSCT 2020/21 Target Maximum =	All reporting of healthcare acquired infections was suspended as a result of the response to COVID-19. Plans are in place to restart monitoring and an update on performance will be provided in a future report. No reports have been formally issued regarding Trusts' performance from April 2020, and targets have not yet been agreed for 2020/21.						
	Ciostifulum Difficile illiection in patients aged 2 years								
	and over, and in-patient episodes of Methicillin- resistant <i>Staphylococcus aureus</i> (MRSA) bloodstream infection compared to 2018/19.	C. Difficile WHSCT 2020/21 Target Maximum =							
Title	resistant Staphylococcus aureus (MRSA) bloodstream		Oct-20	Dec-20	Trend	Cumulative Position	Trend / Activity Analysis		

Title	Target	Comments / Actions	Nov-20	Dec-20	Trend	Cumulative Position	Trend / Activity Analysis
Care Standards in Residential/ Nursing	Target 2.8(a): During 2020/2021 the HSC, through the application of care standards, should continue to seek improvements in the delivery of residential and nursing care and ensure a reduction in the number of (i) residential homes, (ii) nursing homes, inspected that receive a failure to comply notice.		1	0			
Homes	Target 2.8(b): During 2020/2021 the HSC, through the application of care standards, should seek improvements in the delivery of residential and nursing care and ensure a reduction in the number of (i) residential homes, (ii) nursing homes, subsequently attract a notice of decision, as published by RQIA.	reported centrally to RQIA and the Department.	0	0			

Title	Target	Comments / Actions	Nov-20	Dec-20	Trend	Cumulative Position	Trend / Activity Analysis
Children in Care	Target 3.2: During 2020/2021 the HSC should ensure that care, permanence and pathway plans for children and young people in or leaving care (where appropriate) take account of the views, wishes and feelings of children and young people.						The teams within the Women & Childrens Directorate issue feedback forms to children & young people leaving care to take into account their views and feelings which are kept within the Directorate.
Dementia Portal	Target 3.3: By September 2021, patients in all Trusts will have access to the Dementia Portal.	Awaiting confirmation of baseline and technical guidance on how this will be reported					
Palliative/ End of Life Care	Target 3.4: By March 2021, to have arrangements in place to identify individuals with palliative and end of life care needs, both in the acute and primary settings, which will support people to be cared for in their preferred place of care and in the manner best suited to meet their needs.						An overall WHSCT Palliative Care work Plan for 2016/2017 has been developed. An information system has been developed which captures preferences for care. As a result staff are able to support care within Specialist Palliative care team.
Co-production Model	Target 3.5: By March 2021, the HSC should ensure that the Co-production model is adopted when designing and delivering transformational change. This will include integrating PPI, co-production, patient experience into a single organisational plan.	Awaiting confirmation of baseline and technical guidance on how this will be reported

Best Start in Life	Target 1.10: By March 2021, ensure the full regional roll out of Family Nurse Partnerships, ensuring that all teenage mothers have equal access to the family nurse partnership programme. The successful delivery of this objective will directly contribute to PfG Outcome 14 "We give our children and young people the best start in life".	Awaiting confirmation of baseline and technical guidance					
Suicide	Target 1.13: By March 2021, to have further enhanced out of hours capacity to de-escalate individuals presenting in social and emotional crisis, including implementation of a "street triage" pilot and a "safe place" pilot.	This work builds on previous investments in community mental health crisis teams and is an important element of the work to reduce the suicide rate by 10% in 2022 in line with the draft Project Life 2 strategy. Awaiting confirmation of baseline and technical guidance					
Alcohol Drug Related Harm and Drug related Death	Targert 1.14: By March 2021, to have advanced the implementation of revised substitute prescribing services in Northern Ireland, including further exploration of models which are not based on secondary care, to reduce waiting times and improve access. This is an important element in the delivery of our strategy to reduce alcohol and drug related harm and to reduce drug related deaths.	Awaiting confirmation of baseline and technical guidance					
Long Term Conditions	Target 1.15: By July 2021, to provide detailed plans (to include financial profiling) for the regional implementation of the diabetes feet care pathway. Consolidation of preperations for regional deployment of the care pathway will be an important milestone in the delivery of the Diabetes Strategic Framework.	Awaiting confirmation of baseline and technical guidance
