Introduction and Background

This bulletin presents statistics on vacancies actively being recruited in Health and Social Care (HSC) in Northern Ireland as at 30 June 2024. Statistics by staff group and HSC organisation are presented throughout.

All data used in this bulletin have been gathered from Recruitment Shared Services in the Business Services Organisation (BSO), HSC Trusts and regional HSC organisations. To ensure that the Department's information is accurate, high data quality standards need to be achieved and maintained by all HSC organisations.

The data presented in this bulletin is a measure of active recruitment to both permanent and temporary positions. Users should note that the figures do not indicate a measure of posts that are unfilled by permanent or fixed-term staff. Due to fluctuations in the data, caution should be taken when considering point-in-time comparisons.

The data accompanying this bulletin are available of the [Department of Health](#) website.

Key Points

- At 30 June 2024, there were 5,392 vacancies actively being recruited across Health and Social Care (HSC) in Northern Ireland, equating to a vacancy rate of 6.4%.
- The highest number of vacancies actively being recruited across HSC was in the Registered Nursing & Midwifery staff group, with 1,211. This staff group made up 22.5% of all HSC vacancies in recruitment.
- The Nursing & Midwifery Support staff group had the highest vacancy rate, at 8.4% (464 vacancies).
- Of the five regional HSC Trusts, the Belfast HSC Trust had the highest number of vacancies actively being recruited (1,455 vacancies).
- The annual percentage change in vacancies was greatest in the Southern HSC Trust with a decrease of 30.8%, followed by Belfast (26.1%), Northern (24.9%), Western (24.3%), and South Eastern (23.3%) HSC Trusts.

Active Recruitment Vacancy definition: A vacancy is any position that is currently with the recruitment team and being actively recruited to. This will include those going through pre-employment checks, up to the point of a start date being agreed. Once a start date has been agreed with both parties (i.e. manager and applicant) this will no longer be classed as a vacancy. Vacancies that are on hold by managers are not included.

$$\text{Active Recruitment Vacancy Rate} = \frac{\text{Vacancies actively being recruited}}{\text{Active staff in posts}^* + \text{vacancies actively being recruited}}$$

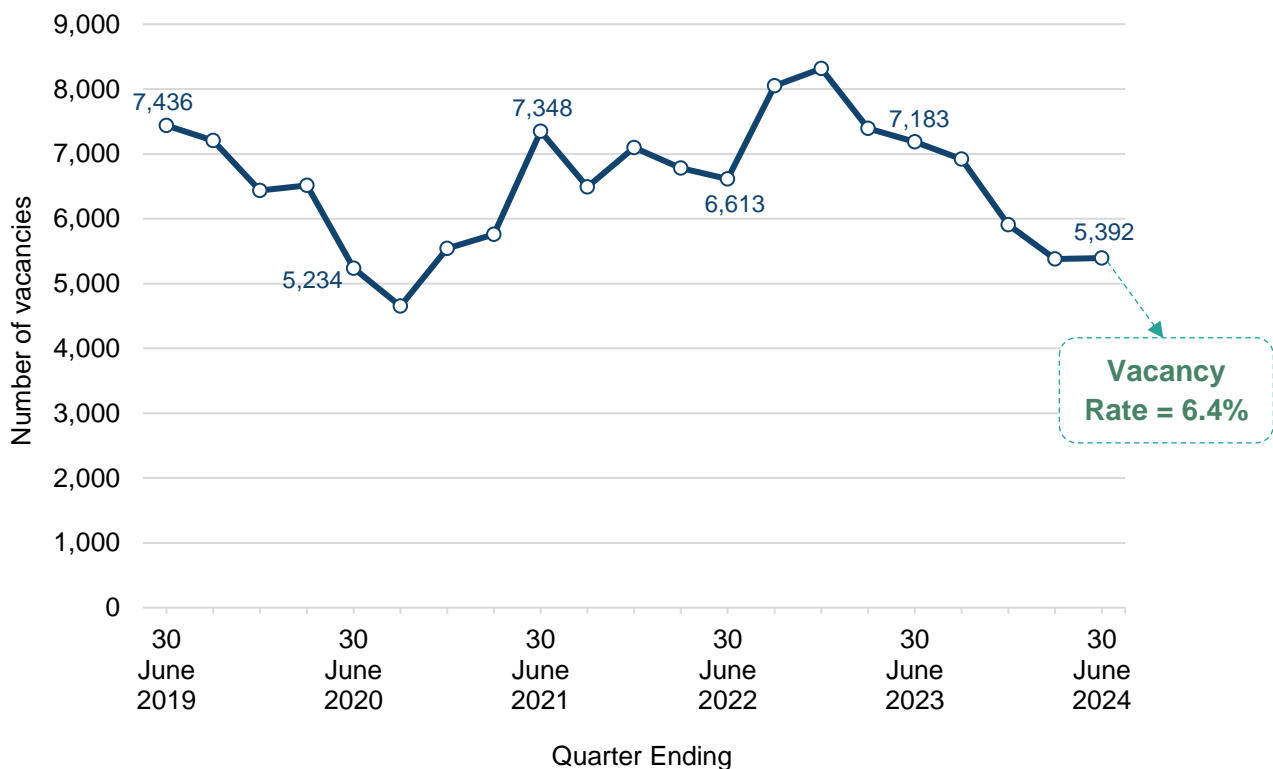

* Includes HSC domiciliary care active staff in posts. This will not match with active staff in post figures published in the HSC Quarterly Workforce Statistics bulletin which excludes domiciliary care active staff in posts.

Overall Vacancies

At 30 June 2024, there were 5,392 vacancies actively being recruited across Health and Social Care (HSC) in Northern Ireland. This equated to a vacancy rate of 6.4%.

The total number of vacancies under active recruitment at 30 June 2024 is 24.9% lower than at 30 June 2023 (7,183) and 27.5% lower than at 30 June 2019 (7,436).

Figure 1: HSCNI Vacancies Actively Being Recruited, 30 June 2019 – 30 June 2024

Staff Group

Latest Position (30 June 2024)

Figure 2 below shows the proportion of vacancies actively being recruited at 30 June 2024 for each staff group. Of the 5,392 vacancies actively being recruited at 30 June 2024, the Registered Nursing & Midwifery staff group made up the highest proportion, at 22.5% (1,211 vacancies). The second highest proportion of vacancies was in the Social Services staff group, at 21.7% (1,168 vacancies), and a further 8.6% (464 vacancies) were in the Nursing & Midwifery Support staff group.

The Medical & Dental staff group made up 7.0% (378 vacancies) of all HSC vacancies actively being recruited at 30 June 2024. Over half (50.5%) of these vacancies were at consultant grade (191 vacancies).

Figure 2: HSCNI Vacancies Actively Being Recruited, by Staff Group at 30 June 2024

Table 1 below presents the number and proportion of vacancies actively being recruited in some sub staff groups and professions at 30 June 2024.

Table 1: HSCNI Vacancies Actively Being Recruited by Sub Staff Group / Profession, 30 June 2024

Sub Staff Group / Profession	Number of vacancies	Percentage of all HSC vacancies
Allied Health Professionals *	357	6.6%
Social Workers	278	5.2%
Social Care staff (including domiciliary care)	890	16.5%
Registered Nurses	1,150	21.3%
Registered Midwives	61	1.1%

* Includes physiotherapists, occupational therapists, speech & language therapists, podiatrists, dietitians, orthoptists, radiographers (who are all part of the Professional & Technical staff group in Figure 2), and paramedics (who are part of the Ambulance group in Figure 2).

Of the sub staff groups and professions listed above in Table 1, Registered Nursing vacancies comprised the largest proportion of all HSCNI vacancies actively being recruited at 30 June 2024, at over one fifth (21.3%, 1,150 vacancies). One in fifteen vacancies in active recruitment (6.6%) were in the Allied Health Professional sub staff group (357 vacancies), and one in twenty (5.2%) were in the Social Work profession (278 vacancies).

Comparison Over Time

Figure 3 below shows the number of vacancies actively being recruited at 30 June over the last five years, in each staff group.

All staff groups reported a decrease in vacancies actively being recruited since 30 June 2023. The largest change in the number of vacancies since 30 June 2023 was in the Registered Nursing and Midwifery staff group, which reported a decrease of 596 vacancies (33.0%). The Professional & Technical and Social Services staff groups also reported large decreases in vacancies since 30 June 2023, 365 vacancies (31.4%) and 271 vacancies (18.8%) respectively.

In the last five years, the largest decrease in the number of vacancies actively being recruited was in the Registered Nursing & Midwifery staff group (1,389 vacancies, 53.4%). The largest percentage change in vacancies since 30 June 2019 was in the Ambulance staff group, which reported a decrease of 96.2% (100 vacancies). The Medical & Dental staff group has however reported the largest percentage increase since 30 June 2019 (81 vacancies, 27.3 %).

Figure 3: HSCNI Vacancies Actively Being Recruited, by Staff Group[#], 30 June 2019 – 30 June 2024

[#] Excludes vacancies coded as generic roles.

Table 2 overleaf presents the change in vacancies actively being recruited in some sub staff groups and professions in the last year and the last five years.

Table 2: HSCNI Vacancies Actively Being Recruited by Sub Staff Group / Profession, 30 June 2019 – 30 June 2024

Sub Staff Group / Profession	% Change 2019-24		% Change 2023-24	
	Number	Percentage	Number	Percentage
Allied Health Professionals *	-399	-52.8%	-198	-35.7%
Social Workers	-135	-32.7%	-169	-37.8%
Social Care staff (including domiciliary care)	54	6.5%	-102	-10.3%
Registered Nurses	-1,332	-53.7%	-548	-32.3%
Registered Midwives	-57	-48.3%	-48	-44.0%

* Includes physiotherapists, occupational therapists, speech & language therapists, podiatrists, dietitians, orthoptists, radiographers (who are all part of the Professional & Technical staff group in Figure 3), and paramedics (who are part of the Ambulance group in Figure 3).

Of the sub staff groups and professions listed above in Table 2, all reported a decrease in vacancies actively being recruited since 30 June 2023. The largest percentage decrease was in the Registered Midwife profession which reported a reduction of 44.0% (48 vacancies), followed by the Social Worker staff group which seen a decrease of 37.8% (169 vacancies). The smallest percentage decrease was in the Social Care profession which reported a decrease of 10.3% (102 vacancies).

The largest decrease in vacancies actively being recruited in the last five years for the sub staff groups and professions listed above in Table 2, was in the Registered Nursing profession, which reported a reduction of over half (53.7%, 1,332 vacancies). The Social Care staff group, however, reported an increase of 6.5% (54 vacancies) between 30 June 2019 and 30 June 2024.

Vacancy Rate

Figure 4 below shows the vacancy rates at 30 June 2024 in each staff group. The Nursing & Midwifery Support staff group had the highest vacancy rate, at 8.4%, while the Ambulance staff group had the lowest vacancy rate (0.3%).

Figure 4: HSCNI Vacancy Rate, by Staff Group# at 30 June 2024

Excludes vacancies coded as generic roles.

All staff groups reported a decrease in vacancy rates since 30 June 2023, the most notable being the Estates Services staff group which reported a decrease in the vacancy rate from 9.8% (30 June 2023) to 6.5% (30 June 2024).

Table 3 below presents the vacancy rates at 30 June 2024 in some sub staff groups and professions.

Table 3: HSCNI Vacancies Actively Being Recruited by Sub Staff Group / Profession, 30 June 2024

Sub Staff Group / Profession	Vacancy Rate
Allied Health Professionals *	5.8%
Social Workers	5.4%
Social Care staff (including domiciliary care)	9.7%
Registered Nurses	5.9%
Registered Midwives #	4.5%

* Includes physiotherapists, occupational therapists, speech & language therapists, podiatrists, dietitians, orthoptists, radiographers (who are all part of the Professional & Technical staff group in Figure 4), and paramedics (who are part of the Ambulance group in Figure 4).

Vacancy rate calculated based on staff in post figures which contain a small number of HSC staff who were graded as student midwives.

Of the sub staff groups and professions listed above in Table 3, the Social Care staff group had the highest vacancy rate, at 9.7%. The Registered Nursing profession had a vacancy rate of 5.9%, while the Allied Health Professional staff group had a vacancy rate of 5.8%.

Regional HSC Trust

Figure 5 below shows the number of vacancies actively being recruited in each regional HSC Trust at 30 June over the last five years.

The Belfast HSC Trust had the highest number of vacancies actively being recruited at 30 June 2024 (1,455), a decrease of 513 vacancies since 30 June 2023.

All regional HSC Trusts reported a decrease in vacancies between 30 June 2023 and 30 June 2024, with the largest annual percentage decrease in the Southern HSC Trust (30.8%), followed by Belfast (26.1%), Northern (24.9%), Western (24.3%), and South Eastern (23.3%) HSC Trusts.

Between 30 June 2019 and 30 June 2024, the number of vacancies actively being recruited decreased in all regional HSC Trusts. During this period, the largest percentage decrease was reported by the Belfast HSC Trust, with 941 fewer vacancies actively being recruited (39.3%), whilst the smallest percentage decrease was reported by the South Eastern HSC Trust (171 fewer vacancies, 14.2%).

Figure 5: HSCNI Vacancies Actively Being Recruited by Regional HSC Trust, 30 June 2019 – 30 June 2024

% Change	Belfast	Northern	South Eastern	Southern	Western
2019-24	-39.3%	-22.2%	-14.2%	-30.5%	-19.3%
2023-24	-26.1%	-24.9%	-23.3%	-30.8%	-24.3%

Other HSC Organisations

Figure 6 below shows the number of vacancies actively being recruited at 30 June 2024 in each of the other HSC organisations. At 30 June 2024, the Business Services Organisation (BSO) had the highest number of vacancies actively being recruited (153), 16 more vacancies actively being recruited (11.7%) when compared with the position five years ago.

Figure 6: HSCNI Vacancies Actively Being Recruited by Other HSC Organisation, 30 June 2024 and Change Over Time

		% Change	
		2019-24	2023-24
Business Services Organisation	153	+11.7%	-14.0%

^ Formerly known as the Northern Ireland Guardian Ad Litem Agency (NIGALA).

Pay Band

Figure 7 below shows the breakdown of HSCNI vacancies actively being recruited at 30 June 2024 by Agenda for Change (AfC) pay band group.

At 30 June 2024, over two fifths (45.0%) of all vacancies actively being recruited in HSCNI were at AfC pay bands 2-4, almost one quarter (23.7%) were at AfC pay bands 6-7, and one fifth (20.3%) were at AfC pay band 5.

Figure 7: HSCNI Vacancies by AfC Pay Band Group, 30 June 2024

Table 4 below presents the percentage breakdown of vacancies actively being recruited in each staff group by pay band groups.

Table 4: HSCNI Vacancies Actively Being Recruited by Staff Group and Pay Band Group, 30 June 2024

NI Medical & Dental Training Agency (NIMDTA)	5
Patient Client Council (PCC)	2
Total	5,392

Note 2: Former HSC Board staff have undertaken their functions from 1 April 2022 as part of the Department of Health's newly formed Strategic Planning and Performance Group (SPPG). For consistency purposes, vacancies actively being recruited in SPPG are included in these data tables, and noted as SPPG.

Note 3: The Children's Court Guardian Agency for Northern Ireland (CCGANI) was formerly known as the Northern Ireland Guardian Ad Litem Agency (NIGALA).

Notes

The data included in this bulletin represents the number of vacancies actively being recruited and does not indicate the whole time equivalent (WTE) for these positions. The data includes both permanent and temporary positions. These figures do not indicate a measure of posts that are unfilled by permanent or fixed-term staff, and do not include posts not actively being recruited to at the specific point in time, including those outside the bounds of the definition e.g. those that have not reached recruitment stage yet.

Due to fluctuations in the data, caution should be taken when considering point-in-time comparisons.

These figures have not been assessed for seasonal adjustment and have not been seasonally adjusted.

The information presented in this bulletin is based on data obtained from Recruitment Shared Services within the Business Support Organisation (BSO), and from the HSC Organisations listed below:

Belfast HSC Trust
Northern HSC Trust
South Eastern HSC Trust
Southern HSC Trust
Western HSC Trust
Northern Ireland Ambulance Service
Northern Ireland Blood Transfusion Service

Former HSC Board staff have undertaken their functions from 1 April 2022 as part of the Department of Health's newly formed Strategic Planning and Performance Group (SPPG). For consistency purposes, vacancies actively being recruited in SPPG are included in this bulletin, and noted as SPPG.

The Northern Ireland Guardian Ad Litem Agency (NIGALA) has been renamed to the Children's Court Guardian Agency for Northern Ireland. This change is effective from 6th March 2023.

Definitions

Active Recruitment Vacancy: A vacancy is any position that is currently with the recruitment team and being actively recruited to. This will include those going through pre-employment checks, up to the point of a start date being agreed. Once a start date has been agreed with both parties (i.e. manager and applicant) this will no longer be classed as a vacancy. Vacancies that are on hold by managers are not included.

Active Recruitment Vacancy Rate: The number of active vacancies as a proportion of all posts (see formula below).

$$\text{Active Recruitment Vacancy Rate} = \frac{\text{Vacancies actively being recruited}}{\text{Active staff in posts}^* + \text{vacancies actively being recruited}}$$

** Includes HSC domiciliary care active staff in posts. This will not match with active staff in post figures published in the HSC Quarterly Workforce Statistics bulletin which excludes domiciliary care active staff in posts.*

HSC: Umbrella term for all Health and Social Care NI Organisations

Quality Assessment

Relevance

This publication provides a summary of HSC vacancies actively being recruited by broad staff groups and HSC organisation. The publication also includes HSC active recruitment trends. The publication meets the needs of users in terms of trends in active recruitment increases or decreases and the volume of active recruitment in staff groupings.

Accuracy and Reliability

The data is sourced from the recording of each HSC organisation's requisition requests on the HSC e-recruit system. Each HSC organisation is responsible for the data in their requisition requests. Regular reporting and sharing of trends helps the data quality discussion. Figures are an accurate summary of recruitment data at a point in time, as per the definition detailed in the publication. Due to the processing time of a vacancy through the HSC e-recruit system, this may have an impact on figures, causing delays in data peaks and troughs.

Once the figures are prepared for publication in excel format, internal quality assurance is carried out by Information and Analysis Directorate (IAD). The report is drafted and the figures in tabular and chart form are inserted into the report; at this point, further internal quality assurance is carried out by IAD to ensure the report matches the excel file.

Validation

IAD do not have the ability to verify aggregate data returns. However some general quality checks for missing data, changes and trends are monitored, any anomalies are checked and can be followed up as appropriate with HSC organisations or the regional recruitment group.

Error

HSC organisations are responsible for their own data and occasionally variance in recording practices can result in inconsistent data patterns across the region. The system is primarily designed for the recruiting of staff, and whilst recruitment (advert) specifications will be accurate, reporting capabilities are sometimes limited and rely on the accurate coding and categorisation of data for analytical purposes.

Revisions

IAD is committed to clarity around data revisions. As soon as possible after IAD ascertain that a correction to published data is necessary, all electronic documents containing the affected statistics on the DoH website will be updated and clearly marked with caveats and footnotes to detail any amendments. If the correction to the published data is minor, the necessary changes will be made by IAD without an announcement.

Timeliness and Punctuality

IAD request this data from HSC organisations on a quarterly basis using a defined data template. A data definition of HSC active vacancies in recruitment was agreed with the regional HSC recruitment leads.

Data is requested from Recruitment Shared Services within BSO and other HSC Trusts/organisations within 1 week of quarter end. Data is usually returned to IAD within approximately 4 weeks, with publication of the data in this bulletin approximately 3 weeks later i.e. 8 weeks after quarter end.

Normal procedure is that twelve months advance notice of publications is given in the [IAD Statistical Releases Calendar](#) on the DoH website. In the majority of cases, the target publication deadlines are met. However, in the event of a change to a pre-announced release date, the delay is announced, explained and updated regularly.

Accessibility and Clarity

The PDF report is accessible on the DoH Internet site via the Statistics section provided by Information and Analysis Directorate, and can be found under [staff vacancies](#).

The PDF report is published alongside MS Excel and CSV versions of data tables. The 24 hour pre-release list is published also. The report is not yet fully accessible for those using assistive technology.

Coherence and Comparability

IAD are not aware of other published data sources of active recruitment data based on the regionally agreed definition detailed in the publication. HSC organisations are of course able to produce their own analysis of their own organisation only.

The data categories as presented in the report are comparable each quarter. Where data categorisation changes, this is noted.

Trade-offs between Output Quality Components

None

Assessment of User Needs and Perceptions

The publications are primarily used by those linked to health services and we take on board any feedback given. We sometimes get requests for lower level data than is published however prior experience of collating too much data (that was frequently unused) has influenced the current template of published information. Where the case for a particular breakdown is presented, it is considered and actioned where found appropriate. Some criticism is received from those that think we should be working to a different definition of vacancies, however for consistency and given the steer from recruitment leads on the definition, we have kept the collection as posts actively being recruited to. If any other outputs were to be developed, they would have to be presented as a different publication.

The publication will be used for a range of purposes by researchers and other users such as the NI Assembly and the DoH. IAD will ensure that the publication remains relevant to users' needs by taking on comments and feedback regularly.

User feedback is invited in this publication. Readers are provided with contact details for the relevant statistician. We gain awareness of users of our data from ad hoc requests for information.

Performance, Cost and Respondent Burden

The publication represents a secondary use of the data and therefore adds no additional burden on health service organisations. The data are obtained from administrative systems within Northern Ireland.

Confidentiality, Transparency and Security

Aggregate data is supplied on HSC active recruitment by staff group and AfC pay level group where applicable.

Data obtained from Recruitment Shared Services and HSC Trusts/organisations does contain some personal information but only aggregate information is published.

The Code of Practice for Statistics is adhered to from data collection to publishing.

DoH's 'Statistical Policy Statement on Confidentiality' can be found in the [Statistics Charter](#).
