[Notes to Readers](#)

This Statistical Fact Sheet, which is published three times a year (along with a more detailed annual bulletin), presents key information on employment vacancies which have been notified to the Department for Communities (DfC) JobCentres / Jobs & Benefits Offices (JCs and J&BOs). The statistics presented here do not relate to the total unsatisfied demand for staff by employers, but to only those vacant positions that have been notified by employers to DfC.

In the first quarter of the 2018/19 financial year there were 14,768 vacancies notified to JCs and J&BOs, a marginal decrease (-1.6%) when compared against the same period in the 2017/18 financial year.

**Standard Occupational Classification**  
**23%** of Vacancies are for 'Elementary' positions e.g. farm workers, bar staff, etc.

**Standard Industrial Classification**  
**24%** of Vacancies are for 'Other Services' positions e.g. hairdressing, repair of goods, etc.

**Northern Ireland Multiple Deprivation Measure**  
**31%** of Vacancies are in the most deprived areas of Northern Ireland.

**Northern Ireland JobCentre/Jobs & Benefits Office**  
**13%** of Vacancies notified to the Shaftesbury Square JBO.

### Yearly Comparison

Quarter 1 2017/18 15,005 Vacancies

Quarter 1 2018/19 14,768 Vacancies

When the 14,768 vacancies notified to the DfC in quarter one 2018/19 are broken down into full-time, part-time and casual vacancies there are;

9,420 Full-Time Vacancies (64%)  
 4,575 Part-Time Vacancies (31%)  
 773 Casual Vacancies (5%)

- Quarter one is made up of April, May and June 2018.
- The majority of vacancies notified to the Department are full time vacancies.
- The proportion of full-time/part-time/casual vacancies continues to remain relatively constant from the last quarter of 2017/18 into the first quarter of the 2018/19 financial year.

## Standard Occupational Classification

The chart opposite presents the Standard Occupational Classification 2000 (SOC 2000), used to organise vacancies notified to the JCs and J&BOs into job groups according to skill level and skill specialisation. Further information, including definitions, relating to the Standard Occupational Classification (2000) can be found [here](#).

Elementary occupations usually require education to be completed to compulsory level. Some occupations may require short periods of work related training in areas such as health and safety (e.g. farm workers; bar staff; cleaners).

## Standard Industrial Classification

The top 5 industrial classifications make up 80% (11,840) of the total number of vacancies notified in this quarter.

In this section the Standard Industrial Classification 2007 (SIC 2007) is used to organise vacancies notified to the J&BOs by the type of economic activity in which they are engaged into twenty one categories. Vacancies are assigned the SIC 2007 code of the employer that notified them. Further information, including definitions, relating to the SIC 2007 can be found [here](#).

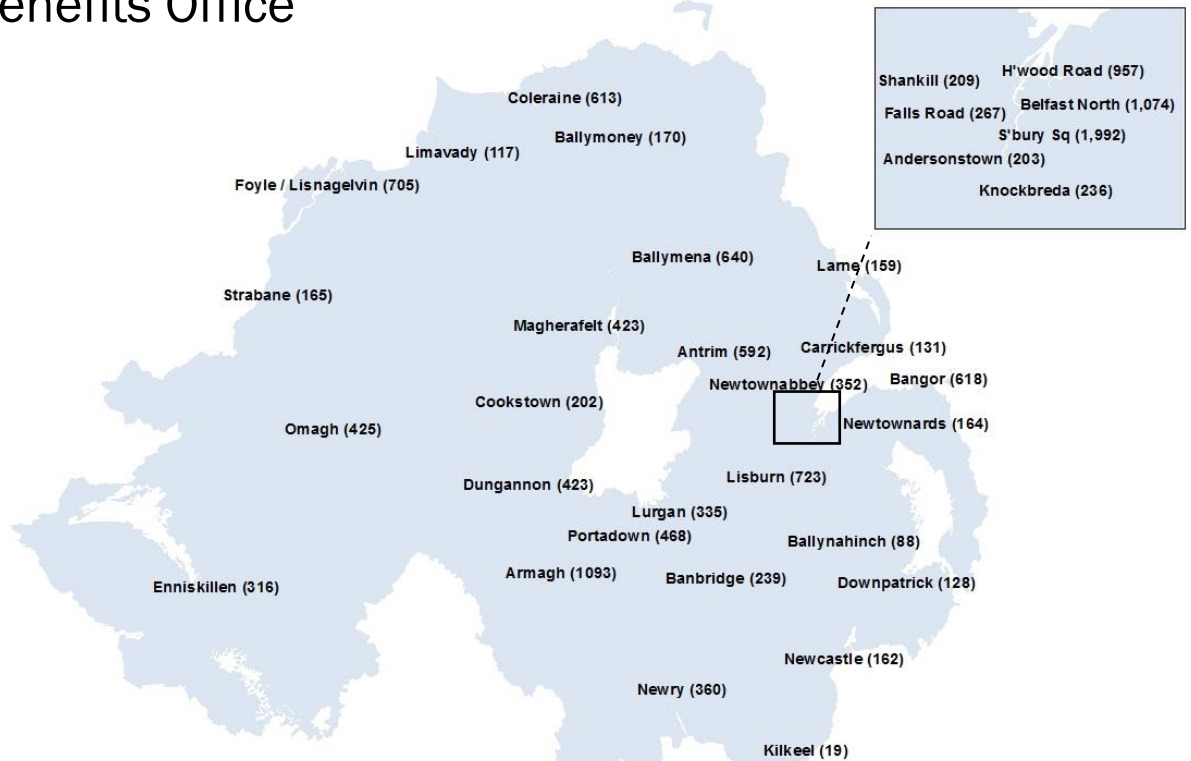

**Top 5 Categories**  
 Other Services - 3,491  
 Administration/Support Services - 3,079  
 Accommodation/Food Services - 1,995  
 Human Health/Social Work - 1,734  
 Wholesale/Retail Trade - 1,541

Other Services includes the activities of membership organisations; personal service activities such as hairdressing; and the repair of personal and household goods such as computers.

## Northern Ireland JobCentre / Jobs & Benefits Office

Notified vacancies (in brackets) are presented here by JC and J&BO. The purpose is not to rank JCs and J&BOs by the number of notified vacancies, but rather to gain an understanding of the spread of notified vacancies at a local level. Vacancies notified to Lisnagelvin J&BO are coded under Foyle J&BO on Client Management System (CMS); they are therefore grouped together in this publication.

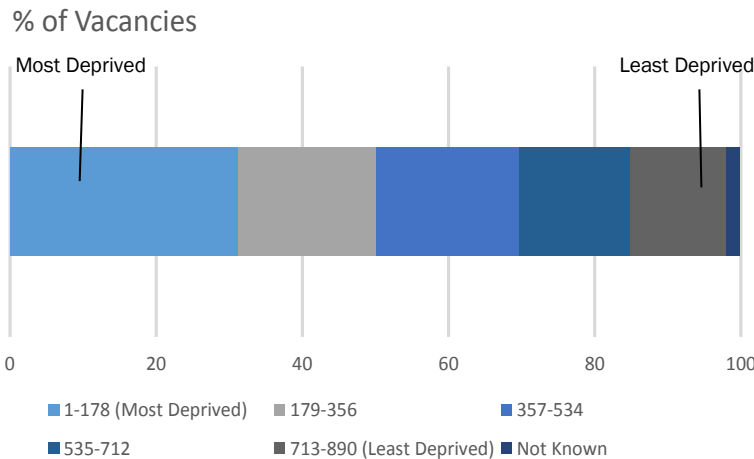

- In the first quarter of 2018/19 the JCs and J&BOs with the largest numbers of vacancies were; Shaftesbury Square with 1,992 (13%), Armagh with 1,093 (7%), Belfast North with 1,074 (7%), Holywood Road with 957 (6%) and Lisburn with 723 (5%).
- Of the 35 JCs and J&BOs, 13 have recorded an increase in the number of vacancies notified to them in quarter one 2018/19 when compared with quarter one 2017/18.

## Northern Ireland Multiple Deprivation Measure

This Deprivation Measure divides Northern Ireland into 890 super output areas. Each area is assigned a rank according to its level of deprivation, 1 being the most deprived and 890 the least. Vacancies notified to the J&BOs are assigned by their location to each deprivation area. Further information relating to the Northern Ireland Multiple Deprivation Measure (2017), including information about how 'deprivation' is calculated can be found [here](#).

In the first quarter of the 2018/19 financial year the data suggests the greatest proportions of vacancies occurred in the most deprived areas of Northern Ireland. Some 31% of vacancies were listed in the most deprived 20% of areas compared to 13% of vacancies for the least deprived 20% of areas.
