SECTION 1

Introduction to Northern Ireland Estimates

Role of Estimates	1.1. Estimates set out the detailed spending plans of Northern Ireland departments and form the basis for the authorisation of sufficient funding and resources for services as detailed in the corresponding legislation.
Resource-based format of the Estimates	1.2. Estimates are presented on a resource basis but approval is required for both resource consumption and cash spend. The resource-based Supply arrangements are described in detail in Section 2. 1.3. The Estimates along with the associated legislation provide the appropriate authority for the Northern Ireland departments' spending. Departments draw up Resource Accounts on the basis of their actual expenditure and these accounts are subject to audit by the Comptroller and Auditor General for Northern Ireland. Accounts are also laid before the Northern Ireland Assembly.
Main Estimates	1.4. The Main Estimates in this volume give details of provision, both resources and cash, proposed during 2021-22.
Northern Ireland Estimates	1.5. The provision sought in these Estimates is based on the public expenditure plans for the Northern Ireland Departments.
NI Departmental Expenditure Limit and Annually Managed Expenditure	1.6. Public expenditure for Northern Ireland is subject to two separate controls, Departmental Expenditure Limits (DEL) and Annually Managed Expenditure (AME). DEL and AME together make up Total Managed Expenditure (TME). During the Budget process the main focus was on the DEL, in that the greater part of the DEL (known as the 'Assigned DEL') is subject to allocation in accordance with local needs and priorities. 1.7. DEL totals are fixed for a multi-year period in Spending Reviews, whereas AME is controlled on an annual basis, based on updated forecasts. This is because AME is largely comprised of demand-led programmes (e.g. social security benefits, pension schemes, etc), which cannot be reasonably subject to multi-year limits.
Consolidated Fund for Northern Ireland	1.8. Northern Ireland has a separate Consolidated Fund, which is funded by a Block grant voted by Parliament as part of the Supply Estimates of the Northern Ireland Office, and by local revenues. The cash requirements of departments will be met from issues from the Consolidated Fund for Northern Ireland. The detailed accounts of the Consolidated Fund for Northern Ireland will be presented each year by the Department of Finance in the Public Income and Expenditure Account.
Accruing Resources	1.9. Under Section 8 of the Government Resources and Accounts Act (NI) 2001, a direction on the actual use of accruing resources is provided by way of a DoF Minute. The Minute directs the use as accruing resources of such sums shown in the Estimates as would otherwise have been required to be surrendered to the Consolidated Fund for Northern Ireland. The source of all types of income to be offset against the gross requirements is shown in the form of a Note to each Estimate.
Northern Ireland Estimates Structure	1.10. Under the resource-based Estimates process, each department presents one Estimate, comprising of one or more Requests for Resources (RfRs) ¹ . The Estimates consist of a total of 19 RfRs for 2021-22 which are grouped by department – see Table 1.1. 1.11. Table 1.2 compares the proposed provision for 2021-22, the provision for 2020-21 and the outturn for 2019-20. The table shows the net resources for each RfR and the net cash requirement for each Estimate.

1 With the exception of DE, DoF, DoH and DoJ that also produce separate Estimates for the Superannuation Schemes.

1.12 Table 1.3 shows the amounts for each Estimates that were previously approved by the Assembly on account in the Budget Act (Northern Ireland) 2021 (column 2) and the balances (column 3) needed to make up the total provision required as detailed in this Estimates volume (column 4). The amounts in column 3 are those that will appear in the Budget (No.2) Bill (Northern Ireland) 2021, subject to approval by the Assembly. All the amounts shown in this table are on a net basis.

SECTION 2

Resource-based Supply Arrangements

- Structure**
- 2.1 Under the resource-based Estimates process, each Northern Ireland department produces a single Estimate, with the exception of departments administering public service pension schemes. These pension schemes are presented as separate Estimates.
- 2.2 Each Estimate is produced in a standard format, and is structured on an objective and function basis. Under this presentation the Estimate is subdivided into “Requests for Resources” (RfRs), each of which equates to a departmental objective. Each RfR is further divided by expenditure category i.e. Departmental Expenditure Limits, Annually Managed Expenditure and Non-Budget, each containing lines equating to individual functions. Each RfR within an Estimate is identified by an alphabetic indicator, with each line denoting an individual function being identified by a numerical indicator.
- 2.3 Estimates consist of the following parts:
- Introduction;
 - Part I (including the Ambit (s));
 - Part II - Subhead detail and Resource to Cash reconciliation table; and
 - Part III - Extra receipts payable to the Consolidated Fund (income and cash).
- 2.4 In order to enhance the information available, Estimates may also be accompanied by:
- Statement of Comprehensive Net Expenditure (SoCNE);
 - Reconciliation of resource expenditure between Estimates, Accounts and Budgets;
 - Reconciliation of capital expenditure between Estimates and Budgets;
 - Analysis of Accruing Resources (ARs);
 - Analysis of Notional Charges;
 - Analysis of Consolidated Fund Extra Receipts (CFERs); and
 - Explanation of Accounting Officer Responsibilities.
- Introduction**
- 2.5 The introduction consists of a single page, comprising:
- the department’s main aim;
 - cross-references to any related Estimates;
 - details of any actual or contingent liabilities; and,
 - reference indicating where the symbols are explained (if applicable).
- Part I**
- 2.6 **Part I** of each Estimate will contain the following key facts:
- (i) the net provision sought (i.e. the amount of resources by RfR and the net cash requirement for the financial year);
 - (ii) a formal description of all the services covered by the Estimate, known as its Ambit. The Ambit clearly indicates the scope of the expenditure cover (including capital expenditure), and associated resources sought in each RfR contained within the Estimate;
 - (iii) the department which will account for the Estimate; and
 - (iv) details of any amounts, resources and cash, which have already been allocated to it in the Vote on Account and the Balance to Complete the provision sought.
- 2.7 No expenditure may be incurred or financed from the Estimate which is in excess of the net totals shown, or which is not covered by the Ambit. Ambits are kept under review to ensure that they properly describe the purposes for which expenditure may be incurred.

Part II and III

- 2.8 The Ambit in Part I of the Estimate must be clearly descriptive of the functions to be carried out by the department as should the descriptions attaching to individual lines within an RfR in Part II. However, the title of each RfR must be objective-based in order to provide a link with the Statement of Operating Costs by Departmental Operating Segment of the resource account, the purpose of which is to inform users of the accounts as to how resources have been divided between the department's segments.
- 2.9 The following two parts of the Estimate provide a further breakdown of the expenditure for which approval is being sought and detail of income.
- 2.10 The first section of Part II of the Estimate is in a tabular or matrix format.
- 2.11 Each Estimate is split into one or more RfRs, each relating to one of the department's main objectives. Each RfR shows a breakdown of expenditure in accordance with the following expenditure headings:
- Departmental Expenditure in DEL,
 - Annually Managed Expenditure (AME), and
 - Non-Budget.
- 2.12 Beneath these levels, each RfR may contain one or more functional lines as necessary. The individual resource item/cell within the RfR sections is the "subhead" against which the expenditure is accounted for.
- 2.13 The different types of expenditure within the Estimate are shown in the vertical breakdown of the table. Each of the columns numbered 1 to 10 is expressed in accruals terms. Columns 1 to 6 fall within the Resource Budget and show all voted current expenditure scored on an accruals basis. Columns 1 and 2 show direct expenditure by the department and its agencies and other bodies within the resource accounting boundary. Column 3 shows grants and transfers to bodies outside the resource accounting boundary, including grants to persons. All of these three columns include amounts in respect of the current consumption of assets, but do not include the amounts associated with the acquisition of capital items.
- 2.14 Amounts authorised to be applied against gross requirements are referred to as "Accruing Resources" (ARs). ARs within the Resource Budget are shown in column 5 of the Part II table. The total of the ARs amounts identified against each RfR line are subject to the legislature's control. ARs are deducted from the total of gross resource expenditure shown in Column 4 to give a net total amount (Column 6). The identified net totals against each RfR are also subject to the legislature's control.
- 2.15 Columns 7 and 8 show the non-Resource Budget elements of the Estimate and are also scored on an accruals basis. Column 7 shows forecast capital investment and Column 8 shows forecast ARs, which relate to non-operating cost items such as income from the disposal of fixed assets. The total amount of non-operating ARs are subject to the legislature's control.
- 2.16 Column 9 of the Estimate shows net total resource figures for the prior year, while the final column of the Estimate shows net total resources for the outturn year 2019-20. These figures are for comparative purposes and will be adjusted as far as possible to be consistent with the Estimate format for the current year.
- 2.17 A detailed explanation of the reconciliation between the net resource total and the Net Cash Requirement is shown in the second section of Part II. The Net Cash Requirement is also subject to the legislature's control. Capital expenditure is outside the Resource Budget, but the cash required to finance capital expenditure has to be provided. This therefore forms part of the cash requirement, which means that capital expenditure is added to the net resource total. Non-cash items, (e.g. depreciation), which were included in the Resource Budget, are then removed and the cash effects of various adjustments relating to movements in working capital (stock, debtors and creditors) and changes in provisions are shown.

- 2.18 The net effect of these changes results in the identification of the department's Net Cash Requirement, which is the amount of cash required from the Consolidated Fund for Northern Ireland in the year in question for the department to carry out its business as specified in the Ambit.
- 2.19 The net resources required, accruing resource totals, net cash requirement and the Ambit will be reproduced in the Budget Act and together provide the statutory authority for the expenditure and associated financing.
- 2.20 Part III of the Estimate shows the extra receipts payable to the Consolidated Fund for Northern Ireland. This seeks to notify the legislature of the department's forecast of amounts to be paid directly to the Consolidated Fund for Northern Ireland, and not taken as offsetting ARs. Amounts are shown both for forecast income and forecast cash receipts (the former being an accruals measure). Data for the two prior years analysed by income and cash receipts is also shown.

Other statements, tables and notes

- 2.21 The statements and tables are accompanied by notes providing additional information about the specific nature of the department's plans, details of grants in aid, changes in accounting policies etc.
- 2.22 The Estimates and supporting statements and notes provide an explanation of the expenditure to be financed from funds made available through the Budget Act.
- 2.23 Those elements from the departmental Main Estimates which will be reproduced in the Budget Act and which together provide the statutory authority for the expenditure, consist of the net resources required and operating and non-operating accruing resources totals by RfR, the net cash requirement for the Estimate as a whole and the Ambit.

Contingent liabilities

- 2.24 The Introduction to each Estimate includes details, where appropriate, of any contingent liabilities in force, which, if they matured, would involve the voting of additional expenditure through the Estimate.

Accruing Resources

- 2.25 Certain income specified in the Estimates may be applied as ARs offset against gross requirements and authorised to be used for the service of the year ending 31 March 2022. The source of all types of income making up the ARs is explained in an analysis in the form of a Note to each Estimate which provides a breakdown of forecast ARs for 2021-22 and comparison with the two prior years. Each table distinguishes, where appropriate, between operating ARs and non-operating ARs (the latter mainly the proceeds from asset sales).
- 2.26 Each Note to the Estimate includes comprehensive AR footnotes so that resource AR items are listed first, followed by non-operating AR items.

2.27 For convenience, the symbols used throughout Northern Ireland Estimates are reproduced below:

SECTION 3

Accountability and Audit of Estimates

- Accountability** 3.1 The permanent head of a department, or appropriate senior officer, will be separately appointed by the Department of Finance as an Accounting Officer for that department. The appointment carries with it responsibility for accounting to the Northern Ireland Assembly for the amounts voted to meet the department's annual Supply Estimate. If additional senior managers within a department are made responsible for particular RfRs within the departmental Estimate the Department of Finance appoints them as Additional Accounting Officers. In such cases, the permanent head of the department will be appointed as Principal Accounting Officer.
- Resource accounts** 3.2 At the end of the financial year a Resource account is prepared for each Estimate which, after being certified by the Comptroller and Auditor General for Northern Ireland (and reported on where necessary), will be laid before the Northern Ireland Assembly.
- Accounting symbols** 3.3 The accounting and audit arrangements for grants in aid are indicated by a common set of symbols which are illustrated in the list of symbols at page xx.

Glossary

Accounting officer	A person appointed by DoF or designated by a department to be accountable for the operations of an organisation and the preparation of its accounts. The appointee is, by convention, usually the Head of a department or other organisation or the Chief Executive of a non-departmental public body (NDPB).
Accruals basis	The principle, which may be used as a basis for the preparation of financial statements, that revenues and costs should be dealt with in the accounts for the period in which they are earned or incurred, so far as this is consistent with the concept of prudence in accounting.
Accruing resources	Income received by a department which it is authorised to retain (rather than surrender to the Consolidated Fund of Northern Ireland) to offset related expenditure. Such income is voted in the Estimates and the Budget Bill and accounted for in departmental resource accounts.
Administration costs	Administration costs reflect the resources consumed directly by departments and agencies in providing central government services. Administration costs include pay, superannuation, travel and subsistence, current expenditure on accommodation etc.
Ambit	A formal description of the services for which authority for resource consumption and associated financing requirements is sought.
Annually Managed Expenditure	Expenditure not subject to firm multi-year limits and is usually demand-led.
Budget Acts	Annual Acts, which give formal approval to departmental Supply Estimates and confers formal legal authority to departments for expenditure. The Budget Bill when enacted becomes the Budget Act.
Capital expenditure	Spending on the creation of assets, above a certain capitalisation threshold, which are expected to be used for a period of at least one year. It includes the construction or extension and alteration of buildings, purchase of buildings, land and equipment, including machinery, plant and other assets.
Consolidated Fund of Northern Ireland	<p>The NI Executive's current account operated by DoF, into which are paid Northern Ireland's Block Grant, local revenues and other non tax receipts and from which voted Supply/cash is paid to departments and statutory Standing Services are also paid.</p> <p>With effect from 1 April 1998 the Northern Ireland Civil Contingencies Fund ceased to exist. Where there is a need to finance urgent expenditure in anticipation of Assembly approval, application must now be made to the Consolidated Fund of Northern Ireland.</p>
Consolidated Fund Standing Services	Payments for services which has been decided, by statute, should be met directly from the Consolidated Fund of Northern Ireland rather than being voted annually (e.g. salaries of Judges, the Comptroller and Auditor General, pensions to certain former Office Holders etc.)
Contingent Liability	A potential liability where the amount and likelihood of payment are uncertain but recognised that future expenditure may arise if certain conditions are met or certain events happen.
Depreciation	A measure of the wearing out, consumption or other reduction in the useful life of a fixed asset whether arising from use, deterioration, the passage of time or obsolescence through technological or market changes.
Departmental Expenditure Limit	A budgetary control or limit on spending – both voted and non-voted provision and includes that expenditure which is generally within the department's control and can be managed within fixed multi-year limits.
Estimates	Estimates set out in detail the amounts of cash and net resources required (taking account of planned receipts) for public services for one financial year for each department.
Extra receipts payable to the Consolidated Fund of Northern Ireland (CFERs)	Receipts and income which the Assembly has not authorised to be used as an Accruing Resource and is surrendered to the Consolidated Fund of Northern Ireland.
Financial year	The year from 1 April in one year to 31 March of the following year.

Statement of Comprehensive Net Expenditure (SoCNE)	A financial statement showing resources that are expected to be consumed during the year in support of the Department's administration and programme expenditure net of departmental income. The SoCNE takes account of both Supply and non-Supply expenditure and income within the departmental accounting boundary as defined in the Financial Reporting Manual (FReM). The SoCNE, thus, shows a broader picture of the department's planned activities for the year than that provided in Part II of the Estimate. Also known as Combined Statement of Comprehensive Net Expenditure.
Grant	An unrequited payment to an individual or body, in the private or public sector to reimburse expenditure on agreed items or functions. See 'Subsidy'.
Grant-in-aid	A grant from voted provision to a particular organisation or body where any unexpended balances of the sums issued during the financial year will not be liable for surrender to the Consolidated Fund of Northern Ireland.
Line	A group of subheads in an estimate equating to a functional area or subdivision of a functional area.
Northern Ireland Audit Office	Office of the Northern Ireland Comptroller and Auditor General (C&AG) which audits the resource accounts of government bodies and carries out value for money inspections within the bodies it audits.
Objective	A specifically planned achievement which contributes towards a department's aim. An Objective should be expressed in a way which allows achievement of the aim to be assessed.
Outturn	Actual expenditure.
Request for Resources (RfRs)	The functional level into which departmental Estimates may be split. RfRs contain a number of functions being carried out by the department in pursuit of one or more of that department's objectives.
Resource account	An end of year account of a government department's resource consumption and spending of monies voted in the Budget Act which compares the estimate with actual resources consumed, payments made and receipts brought to account, and explains any substantial differences. A resource account is prepared for each Estimate in line with the Financial Reporting Manual (FReM).
Resource accounting	The accruals basis on which annual departmental accounts are prepared.
Resource budgeting	The extension of resource accounting principles and practices to the processes by which public expenditure is planned and controlled by government.
Subhead	A single item/cell within a line in the Part II: Subhead Detail of an Estimate, which is separately identified in the resource account. Subheads within the Estimate are identified by line and column (in that order), for example within an RfR the "other current" subhead within the first line would be identified as subhead X -1/2 of RfR X.
Subsidy	A grant (i.e. an unrequited payment) to a producer or trader which is deemed to benefit the consumer by reducing the selling price of the products. See also 'grant'.
Supply procedure	This is a collective term for processes that deal with the scrutiny and approval of Estimates.
Vote on Account	As Main Estimates are not approved until after the financial year has begun, it is necessary for some provision to be approved in advance to allow existing public services to continue for the early months of a new financial year. This is the purpose of the Vote on Account, which is taken alongside the Spring Supplementary Estimates in February/March. Each department generally seeks 45 per cent of the resources and cash voted in the Spring Supplementary Estimates for the current year.

Explanation of Accounting Officer Responsibilities

The Department of Finance has appointed the Permanent Head of the Department for Communities, Mrs Tracy Meharg, as Accounting Officer for the Department with responsibility for preparing this Estimate.

The responsibilities of an Accounting Officer, including responsibility for the propriety and regularity of the public finances for which an Accounting Officer is answerable, for keeping proper records and for safeguarding the Department's assets, are set out in Managing Public Money Northern Ireland.

Notes to the Estimate:

£'000

1. The provision sought for 2021-22 is 5.9% lower than the final net provision for 2020-21.
2. This Estimate includes grant-in-aid provision above £1million to the following:-

Northern Ireland Housing Executive	336,721
Sports Council for Northern Ireland	9,442
Northern Ireland Library Authority	29,307
Arts Council of Northern Ireland	11,347
National Museums and Galleries Northern Ireland	15,124
Language Body	5,328
Armagh Observatory and Planetarium	1,967
Charities Commission Northern Ireland	2,113
Commissioner for Children and Young People for Northern Ireland	1,379
3. RFR A contains provision sought under the sole authority of Part I of the Estimate and of the confirming Budget Act as follows:

A-1 Welfare Reform and Mitigations ■	32,000
--------------------------------------	--------

These payments were previously made under the authority of the Welfare Reform (NI) Order 2015 as amended by The Welfare Reform and Work (NI) Order 2016 and 7 sets of subordinate legislation. This power ended on 31 March 2020. Provision is sought under Sole Authority of the Budget Act for expenditure on welfare reform mitigations until Royal Assent is received for the Welfare Supplementary Payments (Loss of Universal Credit or Housing Benefit) Bill; and until the Welfare Supplementary Payment (Extension) Regulations (NI) 2021 have been approved by a resolution of the Assembly. Due to the ongoing need to prioritise the Department's response to the pandemic it has not yet been possible to progress this legislation. Progressing the necessary legislation to extend Welfare mitigations remains a priority for Minister. The legislation to extend will also require the Executive's support as it is a matter of priority.

DEPARTMENT FOR THE ECONOMY

Introduction

1. This Main Estimate provides for expenditure by the Department for the Economy to promote the growth of a competitive and export-led economy, to take forward its aim of promoting a culture of lifelong learning and to equip people to work in a modern economy.
2. The Department also has a potential discounted liability of £30.4m to meet claims in respect of employers and public liability claims arising from the collapse of the Harland & Wolff insurers.
3. In respect of the Renewable Heat Incentive (RHI) Scheme, there is currently a Judicial Review against the introduction of the Northern Ireland (Regional Rates and Energy) Act 2019. In addition there is also an appeal against the introduction of the 2017 Regulations which will not be considered until the judgement of the Judicial Review into the 2019 Act is available. The prospect of complex and prolonged litigation is foreseeable, the ultimate outcome difficult to predict and will not be known for some time however if they were to be successful then there could be a significant impact. In January 2020 the New Decade, New Approach (NDNA) document included a specific commitment to closure of RHI and replacement with a scheme which effectively cuts carbon emissions. The Department launched an eight week consultation in February 2021 which sought views on options for the future of the Non-Domestic RHI Scheme. The final decision on the future of the Non-Domestic RHI Scheme will be taken by the Executive collectively, informed by the outcome of the consultation.
4. On 1 August 2011, a 10 year fixed rate loan of £175m at a rate of 2.02% was issued to the Presbyterian Mutual Society Limited (in Administration). This loan may be recoverable, in full or in part, depending on property market valuations in future years. Whilst the loan facility was due to cease in November 2020, the knock on effect of COVID-19 and the UK lockdown was so acute that based on advice from the Joint Supervisors, sales agents, the Department's advisors and legal advice, a two year extension was agreed and approved by both the DfE and DoF Ministers. The current outstanding balance due is £43.5m however the latest Joint Supervisor forecast indicates a potential under recovery of £18.5m. This has been provided for under the Departmental Expected Credit Loss provision.
5. Symbols are explained in the guide at the front of the volume.

Main Estimate 2021-22

Department for
Infrastructure

DEPARTMENT FOR INFRASTRUCTURE

Introduction

1. The Department for Infrastructure aims to connect people safely, supporting opportunities and creating sustainable living places.
2. The future relationship between the EU and the UK may result in changes to legislation, regulation and funding arrangements as a result of the deal reached between the UK Government and the EU. It is possible that, should such changes occur, consequential (and currently unquantifiable) contingent liabilities could materialise.
3. The COVID-19 pandemic continues to cause significant economic disruption. The ongoing disruption caused by the pandemic has created significant economic uncertainty, and this uncertainty is expected to continue throughout 2021-22. The Department is actively working with the Department of Finance to seek to redress funding pressures within the Department and its Arm's Length Bodies to mitigate against the impacts of COVID-19.

Explanation of Accounting Officer Responsibilities

The Department of Finance has appointed Mr Chris Stewart, as Accounting Officer for the Department with responsibility for preparing this Estimate.

The responsibilities of an Accounting Officer, including responsibility for the propriety and regularity of the public finances for which an Accounting Officer is answerable, for keeping proper records and for safeguarding the Department's assets, are set out in Managing Public Money Northern Ireland.

Notes to the Estimate:

£'000

1. The provision sought for 2021-22 is 9.7% lower than the final net provision for 2020-21.
2. This Estimate includes grant-in-aid provision above £1million to the following:-

Victims and Survivors Service Limited	13,352
Equality Commission for Northern Ireland	5,084
Strategic Investment Board Limited	4,708
Northern Ireland Community Relations Council	2,605
Northern Ireland Judicial Appointments Commission	1,032
3. RFR A contains provision sought under the sole authority of Part I of the Estimate and of the confirming Budget Act as follows:
 - A-1 Other Hart Report Actions not covered in the HIA (NI) Act 2019 ■ 816

Some Hart Report actions which are not covered in the HIA (NI) Act 2019 require provision under sole authority as these are time limited. However, should it appear that the financial or time limits for such will be exceeded, TEO will seek a suitable legislative vehicle. Expenditure has been approved as it is no more than £1.5m a year and it is expected to last for no more than two years.
 - A-1 Ministerial Panel exercising functions of future Commissioners of Ministerial Standards ■ 5

Provision is sought under Sole Authority of the Budget Act for expenditure incurred on the Ministerial Panel on Standards in absence of legislation. Legislation is not planned. Expenditure is to be no more that £1.5m a year and DoF expects TEO to keep expenditure under review to ensure that should it look likely to breach financial or time limits, a suitable legislative vehicle will be sought.
 - A-2 Good Relations ■ 3,300

Provision is sought under Sole Authority of the Budget Act for expenditure incurred by the Social Investment Fund. There is no legislative basis for the powers exercised by the Social Investment Fund in making its grants. Approval was provided to honour the existing Supply approval of the SIF programme case which extends to 31 March 2021 and the commitments to five projects TEO has entered into. Approval for sole authority was provided on the condition that TEO made no commitment to any further capital or resource projects (or engages in any supporting resource spend for them). Should commitments to additional projects be made then TEO will need to re-evaluate the need for legislation.
