Seirbhísí Talún agus Maoine

Published: 14 August 2024

[View HPI webpage](#)

The **House Price Index (HPI)** is designed to provide a measure of change in the price of a standardised residential property sold in Northern Ireland. The index uses information on all verified residential property sales as recorded by HM Revenue & Customs. The NI HPI is used as the NI component in the UK HPI and statistics are comparable across regions. The index reference period<sup>1</sup> is Q1 2015 = 100.

Results for the most recent quarter are provisional and are subject to revision.

<b>Index</b>	<b>166.8</b>
<b>Standardised Price</b>	<b>£185,025</b>
<b>Quarterly Change</b>	<b>3.6%</b>
<b>Annual Change</b>	<b>6.4%</b>
<b>Number of Sales</b>	<b>5,064</b>

<sup>1</sup> A reference period is a quarter which is used as a benchmark for other periods, to allow calculation of inflation.

# This is an Accredited Official Statistics Publication

The Northern Ireland House Price Index are official statistics, which were independently reviewed by the Office for Statistics Regulation between 2013 - 2017.

They comply with the standards of trustworthiness, quality and value in the [Code of Practice for Statistics](#) and should be labelled 'accredited official statistics' as of 18<sup>th</sup> September 2018.

Accredited official statistics have been judged to comply with the Code of Practice by the Office for Statistics Regulation, as the regulatory arm of the UK Statistics Authority.

[Accredited official statistics](#) are called National Statistics in the Statistics and Registration Service Act 2007.

If LPS become concerned about whether these statistics are still meeting the appropriate standards, LPS will discuss any concerns with the Authority promptly. Accredited Official Statistics status can be removed at any point when the highest standards are not maintained, and reinstated when standards are restored.

Our statistical practice is regulated by the Office for Statistics Regulation (OSR).

OSR sets the standards of trustworthiness, quality and value in the Code of Practice for Statistics that all producers of official statistics should adhere to.

You are welcome to contact us directly with any comments about how we meet these standards.

Alternatively, you can contact OSR by emailing [regulation@statistics.gov.uk](mailto:regulation@statistics.gov.uk) or via the [OSR website](#)

# Introduction

This publication analyses the Northern Ireland domestic property market using residential sales recorded by HM Revenue & Customs (HMRC) for Stamp Duty purposes. This includes all sales irrespective of how they are purchased, e.g. auction sales are included. Information on all sales must, by law, be passed to HMRC – more detail on the HMRC data is available in the [Explanatory Notes](#).

Information on the price of new dwellings sold has been available since Q1 2016. Verified sales numbers for new dwellings for the most recent two quarters are not yet at a reliable level for reporting, so they are not included in the report.

The contents of this report will be of interest to Government, Members of the Legislative Assembly, the business community, property professionals, economic commentators, academics and members of the public interested in the property market.

This report includes nine sections:

1. Northern Ireland House Price Index;
2. House Price Index by Property Type;
3. House Price Index for New/Existing Resold Dwellings;
4. Sales Volumes;
5. Regional House Price Statistics;
6. Economic Context;
7. Detailed Statistics Content;
8. Annual Statistics Content;
9. Contact Details.

# 1. Northern Ireland House Price Index

The overall performance of the residential property market is measured in this report using the Northern Ireland House Price Index (NI HPI). The index uses a modelling approach, to produce a standardised property price. The use of a “mix adjusted” approach controls for differences in the mix of properties sold from quarter to quarter allowing for price comparisons to be made on a like for like basis. The simple average price is not used in constructing the index as it is overly influenced by changes in the mix of properties sold each quarter (e.g. changes in the mix of locations, type or quality of property sold), (see [Explanatory Notes Section 1](#)).

## Revisions

Results for the most recent quarter are provisional and subject to revision as more up-to-date data become available (e.g. through late sales returns to HM Revenue & Customs and revisions to existing sales data). As a result, users should use the full time series from the most recent statistics report, rather than appending new data to back series from previous reports.

The table below shows the revisions to price index statistics for Q4 2023 and Q1 2024 since the previous report published in May 2024.

**Table 1.1 Magnitude of Adjustments made to each index due to revisions**

Sale year	Sale Quarter	NI House Price Index	Detached Price Index	Semi-Detached Price Index	Terrace Price Index	Apartment Price Index	New Dwelling Price Index	Existing Resold Dwelling Price Index
2023	Quarter 4	0.0%	-0.2%	0.0%	0.0%	0.0%	-0.1%	0.0%
2024	Quarter 1	0.1%	-0.1%	0.1%	0.2%	0.0%	0.5%	0.0%

**Table 1.2 Revised Index values**

Sale year	Sale Quarter	NI House Price Index	Detached Price Index	Semi-Detached Price Index	Terrace Price Index	Apartment Price Index	New Dwelling Price Index	Existing Resold Dwelling Price Index
2023	Quarter 4	160.1	162.4	157.7	162.7	150.8	167.8	158.4
2024	Quarter 1	161.0	162.2	159.3	163.4	153.2	169.8	159.2

Statistics are revised each quarter to include sales received since the last publication, namely sales of new properties which have been entered into the NI Valuation List and late sales reported to HMRC.

The process of recording property characteristics of new dwellings takes longer than for existing re-sold properties. As a result a lower proportion of new dwelling sales are available to calculate the initial price (index) estimate in the current quarter, than for existing re-sold sales. This leads to a more volatile series for new dwelling prices (index).

Price and index values published in previous reports can be viewed on the revisions page [NI HPI webpage](#).

## **Presentation of figures**

The index number, which is based on the constant standardised price, is presented rounded to the nearest one decimal place. Quarterly and annual changes are calculated based on the unrounded index for accuracy and presented rounded to one decimal place. The index and prices are comparable over time.

For presentational purposes, most of the tables and graphs in this report cover the period from 2014 onwards. However, the complete time series from 2005 for each Index is available in the detailed statistics document on the [Department of Finance \(DoF\) website](#).

The [Explanatory Notes](#) provide detailed information on the methodology used to produce the statistics.

Figure 1.1 shows the NI HPI series since January – March 2014 (Q1 2014). The reference base period is Q1 2015 and the index is set to 100 for that period.

## NI House Price Index

The overall index showed an increase of 3.6% between the first and second quarter of 2024. Between Q2 2023 and Q2 2024 the House Price Index increased by 6.4%. The NI HPI currently stands at 166.8 in the second quarter of 2024. The index is now 66.8% higher than in the first quarter of 2015, and 65.3% higher than Q1 2005.

## Price Index by Property Type

The index for all property types increased over the quarter, detached properties 3.1%, semi-detached properties 2.6%, terrace properties 5.1% and apartments 4.1%.

## Price Index by Dwelling Type

The process of recording property characteristics of new dwellings takes longer than for existing re-sold properties. The majority of sales in the current quarter will have property characteristics added during the two forthcoming quarters and only when characteristics are available can the sales be used to calculate a price/index. As a result a lower proportion of new dwelling sales are available to calculate the initial price/index estimate in the current quarter, than for existing re-sold sales. This leads to a more volatile series for new dwelling prices/index.

The price of new dwellings sold in Q2 2024 increased by 6.4% from Q1 2024. The index stands at 180.7 in Q2 2024, which is 80.7% higher than Q1 2015 and 88.7% higher than Q1 2005. It should be noted that these figures are provisional and will be revised in the next quarter.

**Table 1.3: NI House Price and Index Values**

Year	Quarter	NI House Price Index	NI Standardised House Price	Quarterly Change	Annual Change
2014	Quarter 1	93.4	£103,570	1.7%	6.3%
	Quarter 2	96.5	£107,031	3.3%	7.9%
	Quarter 3	98.4	£109,116	1.9%	7.9%
	Quarter 4	99.8	£110,750	1.5%	8.7%
2015	Quarter 1	100.0	£110,940	0.2%	7.1%
	Quarter 2	103.1	£114,340	3.1%	6.8%
	Quarter 3	106.1	£117,716	3.0%	7.9%
	Quarter 4	107.0	£118,756	0.9%	7.2%
2016	Quarter 1	107.1	£118,851	0.1%	7.1%
	Quarter 2	111.1	£123,249	3.7%	7.8%
	Quarter 3	112.4	£124,731	1.2%	6.0%
	Quarter 4	112.7	£125,059	0.3%	5.3%
2017	Quarter 1	112.5	£124,786	-0.2%	5.0%
	Quarter 2	114.6	£127,179	1.9%	3.2%
	Quarter 3	116.2	£128,878	1.3%	3.3%
	Quarter 4	116.8	£129,601	0.6%	3.6%
2018	Quarter 1	117.4	£130,292	0.5%	4.4%
	Quarter 2	119.1	£132,095	1.4%	3.9%
	Quarter 3	121.3	£134,619	1.9%	4.5%
	Quarter 4	123.3	£136,764	1.6%	5.5%
2019	Quarter 1	122.1	£135,434	-1.0%	3.9%
	Quarter 2	123.5	£136,960	1.1%	3.7%
	Quarter 3	126.1	£139,838	2.1%	3.9%
	Quarter 4	126.3	£140,141	0.2%	2.5%
2020	Quarter 1	126.9	£140,722	0.4%	3.9%
	Quarter 2	127.0	£140,841	0.1%	2.8%
	Quarter 3	129.6	£143,723	2.0%	2.8%
	Quarter 4	132.9	£147,475	2.6%	5.2%
2021	Quarter 1	134.4	£149,084	1.1%	5.9%
	Quarter 2	139.1	£154,323	3.5%	9.6%
	Quarter 3	143.4	£159,098	3.1%	10.7%
	Quarter 4	143.4	£159,073	0.0%	7.9%
2022	Quarter 1	147.7	£163,877	3.0%	9.9%
	Quarter 2	152.6	£169,296	3.3%	9.7%
	Quarter 3	158.5	£175,793	3.8%	10.5%
	Quarter 4	157.9	£175,124	-0.4%	10.1%
2023	Quarter 1	154.8	£171,689	-2.0%	4.8%
	Quarter 2	156.8	£173,917	1.3%	2.7%
	Quarter 3	161.7	£179,348	3.1%	2.0%
	Quarter 4	160.1	£177,661	-0.9%	1.4%
2024	Quarter 1	161.0	£178,622	0.5%	4.0%
	Quarter 2	166.8	£185,025	3.6%	6.4%

Note: Percentage change figures are calculated using unrounded figures. [Download table](#)

## 2. House Price Index by Property Type

**Table 2.1: NI House Price Index by Property Type**

Property Type	Index (Quarter 2 2024)	Percentage Change on Previous Quarter	Percentage Change over 12 months	Standardised Price (Quarter 2 2024)
Detached	167.2	3.1%	3.8%	£280,908
Semi-Detached	163.5	2.6%	6.5%	£178,609
Terrace	171.8	5.1%	8.5%	£129,577
Apartment	159.4	4.1%	7.7%	£139,287
All	166.8	3.6%	6.4%	£185,025

(Index Q1 2015 = 100)

Note: Percentage change figures are calculated using unrounded figures.

### [Download table](#)

The table shows the index and standardised price of different types of residential property for the second quarter of 2024 as compared to the first quarter of 2024 and the second quarter of 2023. This shows that the index for all property types increased over the quarter, and all property types increased over the year.

The remainder of this section shows the trend since 2014 across the four property types (detached, semi-detached, terrace, apartment).

**Figure 2.1: NI Detached Property Price Index (Q1 2014 – Q2 2024)**

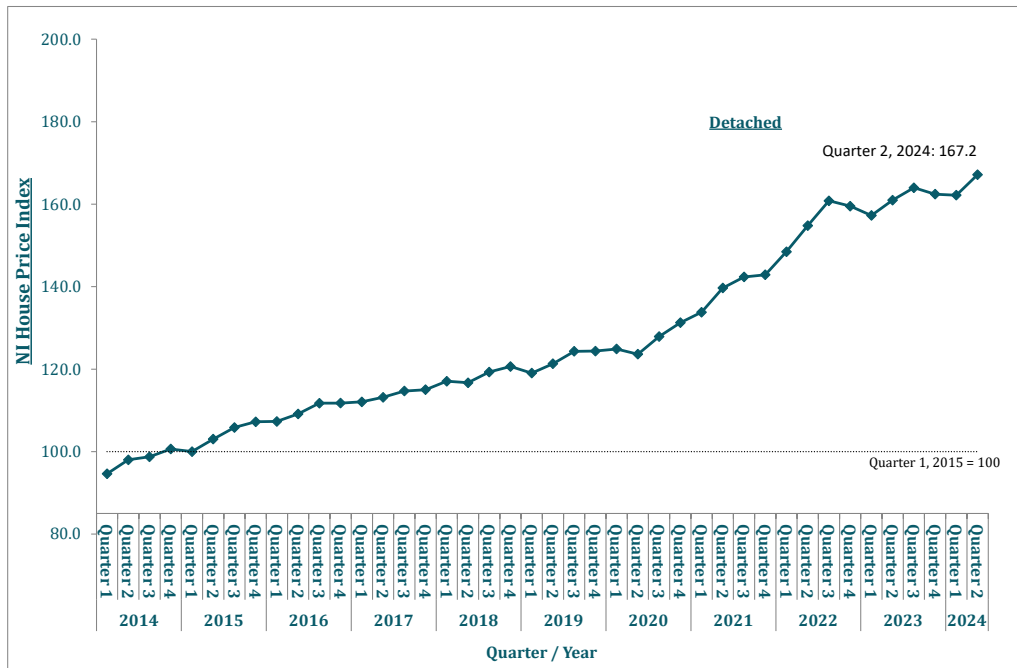

Figure 2.1 plots the index for detached properties sold in Northern Ireland.

The index for detached properties increased by 3.1% between Q1 2024 and Q2 2024 and is 3.8% higher than Q2 2023, with the index now standing at 167.2 (i.e. prices today are typically 67.2% higher than the first quarter of 2015).

[Download chart](#)

**Figure 2.2: NI Semi-Detached Property Price Index (Q1 2014 – Q2 2024)**

Figure 2.2 plots the index for semi-detached properties sold in Northern Ireland.

The index for semi-detached increased by 2.6% between Q1 2024 and Q2 2024 and increased by 6.5% between Q2 2023 and Q2 2024. Prices are currently 63.5% higher than the Q1 2015 level.

[Download chart](#)

**Figure 2.3: NI Terrace Property Price Index (Q1 2014 – Q2 2024)**

Figure 2.3 plots the index for terrace properties sold in Northern Ireland.

The index for terrace properties increased by 5.1% between Q1 2024 and Q2 2024 and increased by 8.5% between Q2 2023 and Q2 2024. It now stands at 171.8 and is 71.8% higher than Q1 2015.

[Download chart](#)

**Figure 2.4: NI Apartment Price Index (Q1 2014 – Q2 2024)**

Figure 2.4 plots the index for apartments sold in Northern Ireland.

The index for apartments increased by 4.1% between Q1 2024 and Q2 2024 and increased by 7.7% between Q2 2023 and Q2 2024. The index now stands at 159.4 It is 59.4% higher than Q1 2015.

[Download chart](#)

### 3. House Price Index for New/Existing Re-sold Dwellings

The sale of a new dwelling is defined as the first sale of a new property in the NI Valuation List. All sales which do not meet this definition are considered to be sales of existing re-sold dwellings.

The process of recording property characteristics of new dwellings takes longer than for existing re-sold properties. The majority of sales of new dwellings in the current quarter will have property characteristics added during the two forthcoming quarters and only when characteristics are available can the sales of new dwellings be used to calculate a price/index. As a result a lower proportion of new dwelling sales is available to calculate the initial price/index estimate in the current quarter, than for existing re-sold sales. **This leads to a more volatile series for new dwelling prices/index.**

**Table 3.1: NI House Price Index for New/Existing Resold Dwellings**

Dwelling Type	Index (Quarter 2 2024)	Percentage Change on Previous Quarter	Percentage Change over 12 months	Standardised Price (Quarter 2 2024)
New	180.7	6.4%	10.8%	£237,090
Existing Resold	164.2	3.2%	5.8%	£174,223
All	166.8	3.6%	6.4%	£185,025

#### [Download table](#)

Table 3.1 shows the price index and standardised price paid for new and existing resold dwellings in Northern Ireland in Q2 2024 compared to Q1 2024 and Q2 2023. New dwellings showed an increase of 6.4%, while existing resold dwellings showed an increase of 3.2% over the quarter. The annual increase in the price of new dwellings was 10.8% and existing resold dwellings was 5.8%.

**Figure 3.1: NI House Price Index for New/Existing Resold Dwellings**

Figure 3.1 shows the price index trend for new and existing resold dwellings between Q1 2014 and Q2 2024. The price index of new dwellings rose by 93.3% from Q1 2005 to peak in Q3 2007 at 185.2, prices for pre-owned dwellings increased by 102.5% during the same period. Since the peak, prices for both dwelling types followed a downward trend until 2013. Price levels for existing resold dwellings bottomed out in Q1 2013 whereas price levels for new dwellings decreased until Q3 2013. Prices of new dwellings increased each quarter since mid-2013 until Q1 2017.

The new dwellings index now stands at 180.7, 80.7% higher than Q1 2015 and 88.7% higher than Q1 2005. The existing resold dwellings index stands at 164.2, 64.2% higher than Q1 2015 and 60.3% higher than Q1 2005.

Further analysis on prices of new and existing resold dwellings is available in the [detailed statistics](#).

## 4. Sales Volumes

Table 4.1 shows the number of verified sales of each residential property type in Northern Ireland during each quarter between Q1 2014 and Q2 2024.

Verified residential property sales are defined as sales recorded by HM Revenue & Customs which could be matched to a domestic property in the NI Valuation List.

From 2014-2021, with the exception of 2020, the number of sales increased each year and in 2021 there were almost 31,000 sales. Sales numbers have decreased since then and the number of sales in 2023 was around 21,000.

In Q2 2024, there were 5,064 verified residential property sales. **This number will be revised upwards** in the next publication due to late sales notified to HMRC and new properties being entered into the NI Valuation List.

During 2014 the most popular choice for dwellings sold was detached (32%), however between 2015 and 2021, semi-detached sales were the preferred choice (35%). During 2022 there was an equal proportion of semi-detached and terrace properties sold (32%) and during 2023 semi-detached once again represented the majority of dwellings sold (33%).

Apartment sales remained steady between 2013 and 2021 at around 8% of all sales, but this proportion increased slightly in 2022 and 2023 to almost 9%.

Of the sales recorded during Q2 2024, 27.6% were detached properties, 32.5% were semi-detached properties, 30.4% were terrace properties and 9.6% were apartments.

**Table 4.1: Number of Verified Residential Property Sales in Northern Ireland**

Year	Quarter	Detached	Semi-Detached	Terrace	Apartment	Total
2014	Quarter 1	1,482	1,408	1,379	363	4,632

## 5. Regional House Price Statistics

### Quarterly index values and standardised prices are available for:

- eleven Local Government Districts;
- Urban – Rural classification.

The Local Government District level are included in this report and the Urban – Rural level data is available in the [detailed statistics](#), alongside data and a graphical representation of the house price index for each council.

### Annual Descriptive Price Statistics

Annual descriptive price statistics for each calendar year 2005 – 2023 are available for:

- eleven Local Government Districts;
- seventy District Electoral Areas
- 462 Electoral Wards.

The statistics include:

- Minimum sale price
- Lower quartile sale price
- Median sale price
- Simple Mean sale price
- Upper Quartile sale price
- Maximum sale price
- Number of verified sales

The annual statistics were released in response to requests from users. The data is presented annually due to the small number of transactions. Prices are available where at least 30 sales were recorded in the area within the calendar year which could be included in the regression model i.e. Non Arms-Length sales, sales of properties where the habitable space are less than 30m<sup>2</sup> or greater than 1000m<sup>2</sup> and sales less than £20,000 are excluded.

**Annual median or simple mean prices should not be used to calculate the property price change over time.** The quality (where quality refers to the combination of all characteristics of a residential property, both physical and locational) of the properties that are sold may differ from

one time period to another. For example, sales in one quarter could be disproportionately skewed towards low-quality properties, therefore producing a biased estimate of average price.

The median and simple mean prices are not 'standardised' and so the varying mix of properties sold in each quarter could give a false impression of the actual change in prices. In order to calculate the pure property price change over time it is necessary to compare like with like, and this can only be achieved if the 'characteristics-mix' of properties traded is standardised.

The annual information is available on the [DoF website](#).

## Local Government District Index and Standardised Price

Table 5.1 shows the NI House Price Index and standardised price for each Local Government District in Northern Ireland at Q2 2024.

Between Q1 2024 and Q2 2024 all councils saw an increase in the price of houses, ranging from 1.4% in both Ards and North Down and Mid Ulster to 11.2% in Causeway Coast and Glens.

Prices in all council areas showed an increase over the 12 months between Q2 2023 and Q2 2024, the lowest increase was in Derry City and Strabane at 3.1% and the highest increase was in Newry, Mourne and Down at 8.9%.

**Table 5.1: NI HPI and standardised price by Local Government District (Quarter 2 2024)**

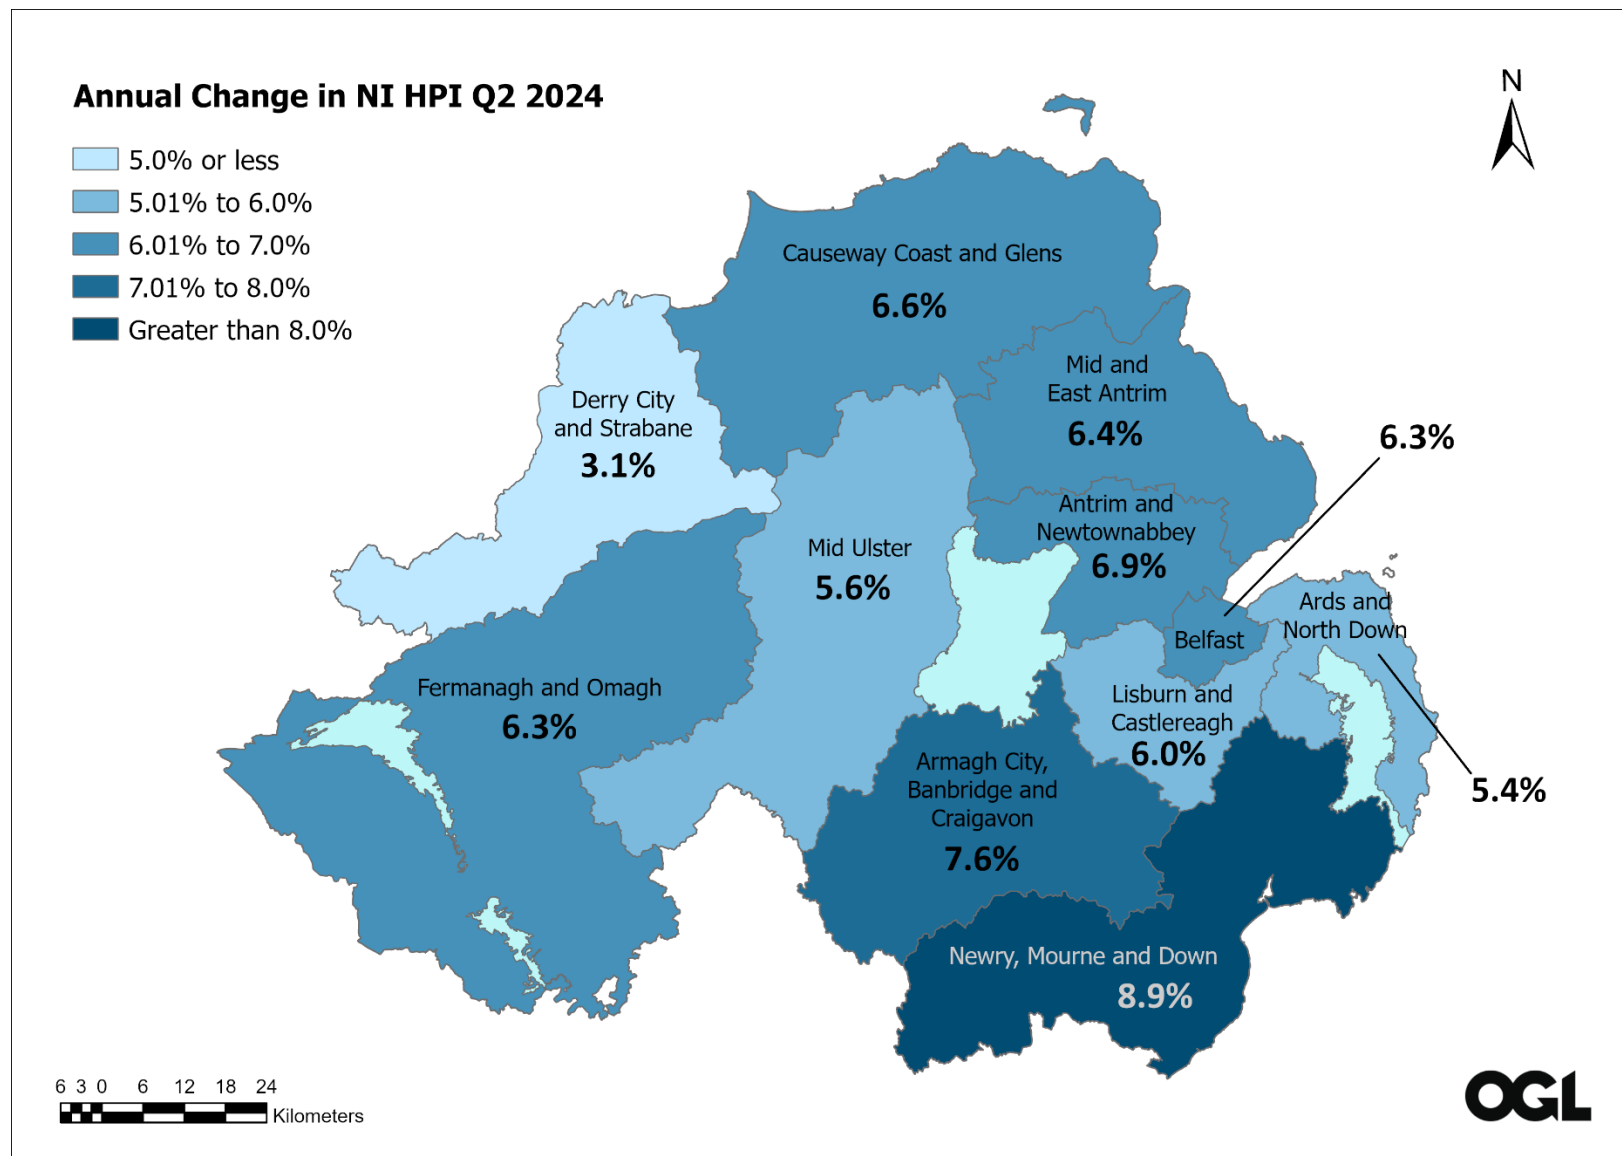

Local Government District	Index (Quarter 2 2024)	Percentage Change on Previous Quarter	Percentage Change over 12 months	Standardised Price (Quarter 2 2024)
Antrim and Newtownabbey	165.8	2.9%	6.9%	£190,567
Ards and North Down	157.7	1.4%	5.4%	£211,630
Armagh City, Banbridge and Craigavon	167.9	2.4%	7.6%	£165,470
Belfast	159.0	2.2%	6.3%	£168,054
Causeway Coast and Glens	192.5	11.2%	6.6%	£207,798
Derry City and Strabane	173.1	4.4%	3.1%	£163,836
Fermanagh and Omagh	176.8	3.7%	6.3%	£169,489
Lisburn and Castlereagh	160.5	2.3%	6.0%	£215,464
Mid and East Antrim	163.6	3.9%	6.4%	£169,441
Mid Ulster	158.8	1.4%	5.6%	£177,585
Newry, Mourne and Down	180.0	8.0%	8.9%	£202,524
Northern Ireland	166.8	3.6%	6.4%	£185,025

(Index Q1 2015 = 100)

Note: Percentage change figures are calculated using unrounded figures.

**Figure 5.2: Standardised Price by Local Government District Q2 2024**

The standardised price for NI as a whole is £185,025 and ranges from £163,836 in Derry City and Strabane to £215,464 in Lisburn and Castlereagh.

## 6. Economic Context

House prices are often considered within the economic context of a region. The latest [Department for the Economy \(DfE\) monthly economic update](#) (July 2024) provides an overview of the state of the Northern Ireland economy, setting it in context with the UK and Republic of Ireland.

The most up-to-date official statistics on the economy and labour market are available on the Economy page of the [Northern Ireland Statistics and Research Agency \(NISRA\) website](#).

To set the NI HPI within this economic context, the Northern Ireland Composite Economic Index (NICEI – [an experimental official statistic](#)), along with the UK and Republic of Ireland GDP indices have been presented with a graph of the NI house prices at Figure 6.1. Underneath is an economic time line showing key world, European, UK and NI events.

To illustrate the relationship between the three indices in figure 6.1 the NICEI, UK and ROI indices are referenced to Q1 2015 = 100.

The graph shows how the prices between Q1 2013 and Q3 2019 most closely aligned to the NI economic performance. Since the end of 2019 NI economic performance decreased before returning to a similar level in Q2 2021, house prices continued to rise during this period. The UK GDP and the NICEI both fell to a series low in Q2 2020. ROI GDP fell at a slower rate and increased between Q4 2021 and Q3 2022. There has been a downward trend since Q4 2022.

**Figure 6.1: NI Standardised House Price with NICEI, UK and ROI GDP Indices**

2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024
<p>Employment in manufacturing highest growth rate in 20 years</p> <p>Highest rise in export activity since August 2007</p> <p>Construction Output still 48% below Q1 2007 peak</p>	<p>Construction employment up for first time in 5 months</p> <p>6 months of growth but pace of activity eased in Q3</p> <p>Uneven prospects across countries/regions; global growth 3.1%, EU 1.5%, Ireland 4.8%, UK 2.5%</p> <p>UK vote to leave the European Union</p> <p>Falls in the Euro and Dollar exchange rates boost exports</p> <p>New orders fall for first time in 15 months</p>	<p>Consumer squeeze with inflation outpacing wage growth</p> <p>Private sector employment at record high</p> <p>Housing starts at their highest level for 7 years</p> <p>Brexit and the border issue presents economic challenges</p> <p>Chancellor announces austerity is coming to an end</p> <p>NI unemployment rate increased to 4.3%, higher than UK</p> <p>NI Construction Output for 1<sup>st</sup> half of year fell by 4.5% year on year</p> <p>Brexit and border uncertainty continues to challenge business</p>	<p>PMI survey: 2019 weakest year for private sector output, orders and employment growth in 7 years</p> <p>NI Construction activity hit a 79 month low.</p> <p>NI unemployment rate fell to a record low of 2.5 per cent in Q3 2019</p> <p>Brexit uncertainty continues to negatively impact business</p> <p>NI Executive returns after 3 years</p> <p>Covid-19 Pandemic: UK lockdown measures pause housing market 23 Mar – 15 June</p> <p>Great uncertainty and risk to economic recovery due to rise in Covid-19 cases, new restrictions and end to Brexit transition period</p>	<p>PMI survey: March 2021 output and new orders nearing stabilisation</p> <p>Higher prices, labour shortages and supply chain issues dogged the economy in the autumn</p> <p>Northern Ireland experienced the largest payroll growth, relative to pre-pandemic levels, of all the UK regions but also saw the steepest fall in self-employment (-31%).</p> <p>Russia – Ukraine conflict causes large increases in global food prices</p> <p>Soaring energy costs squeeze household budgets</p> <p>UK inflation peaked at 11.1% in Oct</p> <p>Government release the Energy Support Scheme for households</p> <p>Mortgage borrowing costs remain high due to the UK budget in Sep</p>	<p>PMI survey: March 2023 output, new orders and employment increased. **Figure 6.2: Ratio of NI Median House Sale Price to Median Annual Gross Earnings**

Source: [Annual Survey of Hours and Earnings](#), NISRA

Figure 6.2 shows the ratio of median sale price of residential properties in Northern Ireland to median annual gross earnings of all full time employees in Northern Ireland for each year between 2005 and 2023.

In 2005 median house prices were just over five times the median annual gross full time salary, but by 2007, at the peak of the market, prices were more than 9 times the median salary. With the downturn in the property market since 2008, the ratio fell each year until 2012. The ratio stood at 4.5 in 2014 and 2015 and between 2016 and 2020 was reasonably steady at around 4.8 to 5.0. The median house price in 2021 increased slightly to 5.3 times the median gross full time salary but has fallen during 2022 and 2023. The median house price is now 4.9 times the median gross full time salary.

The annual gross earnings figures are published annually in the autumn. The next update of ratio of earnings to house prices will be November 2024.

## 7. Detailed Statistics Content

An index, price series and sales volumes between Q1 2005 and Q2 2024 are available in [detailed statistics](#) for the following breakdown:

- All residential dwellings;
- Property Type (detached, terrace etc);
- Dwelling Type (new/existing resold);
- Local Government District;
- Urban and Rural Area;
- Rural Drive Times.

These statistics should be used when calculating a price change over time.

## 8. Annual Statistics Content

Price statistics for each calendar year 2005 – 2023 in each LGD and Electoral Ward in NI are available on the [DoF website](#), these include:

- Minimum sale price
- Lower quartile sale price
- Median sale price
- Simple Mean sale price
- Upper Quartile sale price
- Maximum sale price
- Number of verified sales

These statistics should **not** be used when calculating a price change over time.
