#### Introduction

This report presents the monthly performance against a range of targets and indicators for each directorate which are a combination of:

- Commissioning Plan targets and indicators of performance drawn from the Health and Social Care Draft Commissioning Plan 2015/16
- Internally defined directorate Key Performance Indicators (KPIs) including Safety, Quality and Experience (SQE) indicators.

The report is divided into separate sections for each of the directorates. The first few pages give a dashboard of performance;

- Highlight scores against each of the Commissioning Plan targets
- Performance against each of the HSC Indicators of Performance
- Performance against each of the directorate KPIs

This is followed by a detailed breakdown of performance against each of the Commissioning Plan targets with, where appropriate, a 12 month performance trend analysis.

n Conditions	By March 2016, deliver 78,000 Monitored Patient Days (equivalent to approx 550 patients – this number could be less if more expensive packages are being utilised) from the provision of remote tele-monitoring services through the Tele-monitoring NI contract.	For 2015-16, a target of 78,000 patient target days is in place for the South Eastern Trust. At year end (2014-15) on Telehealth alone (TF3), SET just missed the targets by 2740 MPD i.e. 4%. The plan is to try and achieve this activity on TF3 telehealth alone. MPD = Monitored Patient Days	TF3 In Month 6147 MPD 101% Cumulativ e 58,595 MPD 98.2%	TF3 In Month 6293 MPD 101% Cumulativ e 64,888 MPD 98.4%	Reported in Arrears	Telemonitoring for Telehealth shows a 0.7% variance against the monthly target and 0.6% cumulative ie January provision of 6293 days against actual target of 6248 days. No of patients in January benefiting from remote telemonitoring = 206 patients
Long-Term	New information page available on I-Connect <u>http://iconnect/NursingPrimaryCare</u> <u>Older/PrimaryCare/SpecNursing/Pa</u> <u>ges/Telehealth.aspx</u>	If there is a shortfall towards the end of the year we will be able to utilize u-tell activity. n = Monitored Patient Days per month Monthly target = 6500 MPD	Inc U-Tell: In month 7688 121% Cumulativ e 66,283 111%	Inc U-Tell: In month 7440 119% Cumulativ e 73,723 112%	Reported in Arrears	<u>U-Tell - January</u> INR: 37 pts x 31 days = 1147 MPD DM: 4 pts x 31 days = 124 MPD Total: 1271 MPD No new patients
Long-Term Conditions	By March 2016, deliver 90,132 telecare monitored patient days (equivalent to approximately 244 patients) from the provision of remote telecare services including those provided through the Telemonitoring NI Contract. Electronic referral process now in place – see link http://iconnect/NursingPrimaryCare Older/PrimaryCare/SpecNursing/Pa ges/Telecare.aspx	The Trust has started the process of educating practitioners about the system and referrals have been placed. Work is being undertaken to enable electronic referrals and this will hopefully be in place in June. January target = 9044 MPD January Cum target = 71,183 MCD = Monitored Care Day	In Month 6343 MCDs 74% Cumulativ e 53,717 MCD 86.4%	In Month 6495 MCDs 72% Cumulativ e 60.212 MCD 85%	Reported in Arrears	Monitoring for Telecare shows a increase in referrals in January (12 in total compared to 9 the previous month) with a monthly variance of 28%. With 12 referrals, 13 were installed and 5 de-installations due to deaths or admission to Residential or PNH. The number of patients benefiting from remote telecare monitoring = <b>213 clients</b> (increase of 9 pts on previous month).
