Statistical Bulletin

Request for User Feedback

Analytical Services Unit (ASU) are continuing to reach out to users of this publication to better understand how the statistics are being used and whether there are any improvements that can be made.

Statisticians in ASU are committed to following best practice when producing statistics. For all our statistical publications, we aim to follow the 'Code of Practice for Official Statistics'. Many of our publications are listed as 'National Statistics' and for those we *must* follow these rules. This ensures that our National Statistics meet the highest standards for statistical publications. The Benefit Statistics Summary was designated as a National Statistic in June 2013.

As part of our responsibilities under the Code of Practice, we want to hear from people who use the figures within the Benefit Statistics Summary. We would like to find out what people use the statistics for and to make sure that the publication is as useful as it can be. ASU also wishes to assess how we communicate with users on an ongoing basis.

We would appreciate if you completed a short questionnaire to give us your views on the publication.

An online version of this questionnaire is available at the following link:

https://www.surveymonkey.com/s/Ben_Stats_User_Survey

Alternatively, a hard copy can be requested by emailing asu@dsdni.gov.uk

Many thanks for your time!

KEY FINDINGS

Unless stated otherwise, the figures are at May 2015. The key findings include:

- The number of Jobseeker's Allowance claimants was 41,150. This represents a decrease of 10,640 in the last year.
- The number of Employment and Support Allowance claimants was 118,140 and the number of Employment and Support Allowance recipients was 113,670. This represents an increase in claimants of 14,280 on a year earlier. Some of this is as a result of the migration of cases from Severe Disability Allowance and Incapacity Benefit.
- The number of Incapacity Benefit claimants was 3,040 and the number of Incapacity Benefit recipients was 50.
- The number of Severe Disablement Allowance claimants was 1,690 and the number of Severe Disablement Allowance recipients was 1,630.
- There were 39,020 claimants of Income Support. This represents a fall of 5,030 in the last year. This is mainly as a result of most claimants who were claiming on the grounds of incapacity moving to Employment and Support Allowance.
- There were 254,080 people of working age claiming a key benefit. This has fallen by 2,550 in the last year, mainly as a result of a reduction in people claiming Jobseeker's Allowance.
- The number of State Pension claimants was 306,370 an increase of 1,700 on a year earlier.
- There were 84,730 claimants and 103,830 beneficiaries of Pension Credit. Claimants have fallen by 4,130 since May 2014, mainly as a result of an increase in the age of entitlement and increases in State Pension amounts.
- There were 310,950 people over State Pension age claiming a key benefit, an increase of 1,190 in the last year.
- The number of Disability Living Allowance recipients was 205,610. This has risen by 7,300 in the last year.
- The number of Attendance Allowance recipients was 52,580 representing a fall of 630 on a year earlier.
- The number of Carer's Allowance claimants was 69,170. This represents an increase of 3,300 in the last year.

Introduction

The Northern Ireland Benefit Statistics Summary is produced each quarter by the Analytical Services Unit (ASU) of the Department for Social Development.

The Summary provides an up to date and concise overview of the main benefits administered by the Social Security Agency (SSA) on behalf of the Department for Social Development (DSD):

- Jobseeker's Allowance
- Employment & Support Allowance
- Incapacity Benefit and Severe Disablement Allowance
- Income Support
- State Pension
- Pension Credit
- Disability Living Allowance
- Attendance Allowance
- Carer's Allowance

More detailed statistics are available as supplementary tables for each benefit and are available on the DSD website at http://www.dsdni.gov.uk/index/stats_and_research/benefit_publications.htm

Background Notes

Trends in certain benefits will be affected by changes to State Pension age which were introduced on 6th April 2010. This included a gradual rise in women's State Pension age. For men the State Pension age is 65. For women born on or before 5th April 1950 the State Pension age is 60. State Pension age for women born between 6th April 1950 and 5th April 1955 will be between 60 and 65 depending on their date of birth. State Pension age for women born after 5th April 1955 but before 6th April 1959 will be 65. State Pension age for both men and women will rise to 68 between 2024 and 2046.

Data Notes

Users should be aware that the data has been assessed for disclosure risk and methods of protection have been applied.

Figures are rounded to the nearest ten to protect individual records. Some additional disclosure control has also been applied. Figures are only slightly affected by these procedures.

Average amounts are shown as pounds per week and rounded to the nearest penny.

Totals may not sum due to rounding. Percentages are rounded to whole numbers.

1. Working Age Benefits

1.1 Jobseeker's Allowance

Background Information

Jobseeker's Allowance (JSA) was introduced on 7th October 1996 and has both contributory and income-related elements. It is paid to people under State Pension age who are available for and actively seeking work.

The official source of JSA figures is the [DETI/ONS claimant count measure](#) (which is seasonally adjusted). The figures also include clerical cases, which these do not. ASU produce a separate set of Jobseeker's Allowance figures to enable cross-benefit analysis and supply a wider range of breakdowns, and these are provided in the supplementary tables of this release.

Further information is available in Annex 1 and from <http://www.nidirect.gov.uk/jobseekers-allowance>.

Facts and Figures

The ASU figures at May 2015 show the total number of Jobseeker's Allowance claimants was 41,150. Female claimants represented 29% of the JSA caseload, while males represented 71%. The total caseload has decreased by 10,640 since May 2014. The number of JSA claimants is largely dependent on the current state of the economy and the availability of jobs.

http://www.dsdni.gov.uk/index/stats_and_research/benefit_publications.htm

1.2 Employment and Support Allowance

Background Information

From 27th October 2008, Employment & Support Allowance (ESA) replaced Incapacity Benefit and Income Support paid on the grounds of incapacity for new claims.

Reassessment of existing Incapacity Benefit cases started gradually from October 2010 (with a small pilot), with full national implementation from February 2011 to 2014. It was extended to Severe Disablement Allowance in December 2013. These claimants would then be subject to the standard conditions of an ESA claim i.e. to undertake a work capability assessment.

Further information is available in Annex 1 and from <http://www.nidirect.gov.uk/employment-and-support-allowance-people-with-disabilities>.

Facts and Figures

At May 2015, there were 118,140 claimants of Employment and Support Allowance. This represents an increase of 14,280 on a year earlier and many of these claims have been migrated from Incapacity Benefit or Severe Disability Allowance. Of the 118,140 total claimants, 53% were men and 47% women.

Table 2: Employment & Support Allowance Claimants and Recipients

	Date	All Claimants	Recipients	Credits Only
2010	February	16,760	14,560	2,200

http://www.dsdni.gov.uk/index/stats_and_research/benefit_publications.htm

1.3 Incapacity Benefit and Severe Disablement Allowance

Background Information

Incapacity Benefit (IB) replaced Sickness Benefit and Invalidity Benefit from 13th April 1995. It is paid to people who are assessed as being incapable of work and who meet certain contribution conditions.

Claimant's who are assessed as not being capable of work and do not meet the contribution conditions can receive 'IB Credits only'. They do not receive any IB payment but their National Insurance account is credited for the duration of their claim. They are referred to as claimants but are not recipients (they are not receiving a monetary benefit).

Further information is available in Annex 1 and from <http://www.nidirect.gov.uk/index/information-and-services/people-with-disabilities/financial-support-for-people-with-disabilities/incapacity-benefit-people-with-disabilities.htm>

Severe Disablement Allowance (SDA) replaced Non-Contributory Invalidity Pension and Housewives Non-Contributory Invalidity Pension from 29 November 1984. Until April 2001, people who were incapable of work and did not satisfy the contribution conditions for IB could get SDA.

IB was replaced by Employment and Support Allowance (ESA) for new claims from October 2008. In October 2010 a pilot commenced to move existing IB customers to ESA by reassessing their eligibility to the benefit, with the full reassessment starting in February 2011. It was extended to SDA in December 2013. Further information is available in Annex 1 and from <http://www.nidirect.gov.uk/incapacity-benefit-people-with-disabilities> and <http://www.nidirect.gov.uk/severe-disablement-allowance>.

Facts and Figures

At May 2015, there were 3,040 claimants of Incapacity Benefit a decrease of 2,280 on a year earlier. The majority of these claimants will have been migrated to ESA.

At May 2015 there were 1,690 claimants of Severe Disablement Allowance a decrease of 5,870 on a year earlier. The majority of these claimants will have been migrated to ESA.

Table 3: Incapacity Benefit and Severe Disablement Allowance claimants and recipients

Date	Benefit				
	Incapacity Benefit		Severe Disablement Allowance		
	Claimants	Recipients	Claimants	Recipients	
2010	February	100,300	61,530	11,240	10,980
	June	97,510	59,810	11,070	10,820

	September	21,250	13,680	9,550	9,330
	November	14,940	8,770	9,490	9,280
2014	February	9,510	4,090	9,210	9,010
	May	5,320	920	7,560	7,360
	September	3,780	180	2,110	2,020
	December	3,430	100	1,810	1,750
2015	February	3,260	90	1,740	1,680
	May	3,040	50	1,690	1,630

Please note: Due to the diminishing numbers in receipt of Incapacity Benefit and Severe Disablement Allowance, primarily because of the migration of cases to Employment and Support Allowance, the supplementary tables are no longer published with this release.

Figure 3: Incapacity Benefit and Severe Disablement Allowance claimants time series

Latest statistical data available from:
http://www.dsdni.gov.uk/index/stats_and_research/benefit_publications.htm

Please note: Due to the diminishing numbers in receipt of Incapacity Benefit and Severe Disablement Allowance, primarily because of the migration of cases to Employment and Support Allowance, the supplementary tables are no longer published with this release.

1.4 Income Support

Background Information

Income Support is intended to help people on low incomes who do not have to be available for employment. It can normally be claimed by people who are:

- aged 16 or over;
- not working or working under 16 hours per week (and/or with a partner working under 24 hours);
- not required to be available for full-time employment;
- and in receipt of insufficient income to meet prescribed needs.

The main types of people who receive it are lone parents, the long and short-term sick, people with disabilities and other special groups such as carers.

From 27th October 2008, Employment & Support Allowance (ESA) replaced Incapacity Benefit and Income Support paid on the grounds of incapacity for new claims. Migration of existing Disabled Income Support customers began in February 2011.

Changes to IS Lone Parents (LPs) were introduced in November 2008 where customers were no longer able to make a new or repeat claim for IS solely on the basis of their parental status for youngest children aged 12 or more. From March 2009 existing IS LPs with youngest child aged 12 or over had their eligibility removed, at October 2009 this policy was extended to youngest child either 10 or 11 and from October 2010 it was for youngest child aged 7 or over.

Further information is available in Annex 1 and from <http://www.nidirect.gov.uk/income-support>

Facts and Figures

At May 2015, the total number of Income Support (IS) claimants was 39,020. Disabled claimants represented 18% (7,040) of all IS customers. Lone Parents represented 55% (21,260) of all IS customers, while "other" claimants (including carers) represented 27% (10,710) of all IS customers.

The number of Income Support claimants has fallen by 5,030 since May 2014. Disabled claimants have fallen by 5,020 which would be mainly as a result of claimants being migrated to ESA. Customers can remain on Income Support if they also qualify for another reason eg they are a Lone Parent or Carer.

Due to the age of qualifying children being reduced for IS Lone Parents, the number of lone parent claimants fell by 2,930 between February 2010 and May 2011.

Table 4: Income Support Claimants by Type of Claim

Date	All Claimants	Claim Type			
		Disabled	Lone Parent	Other	
2010	February	88,110	56,420	23,560	8,130
	May	87,010	55,850	23,090	8,070

Figure 4: Income Support claimants by type of claim time series

Latest statistical data available from:

http://www.dsdni.gov.uk/index/stats_and_research/benefit_publications.htm

1.5 Working Age Client Group

Background Information

Data collected through the administration of individual 'key' benefits are merged together to create 'Client Group' data. Each customer is classified just once. This gives an estimate of the overall number of customers claiming benefit. The client groups are 'Clients of working age' and 'Clients of pension age'.

The 'key' benefits for the Working Age Client Group are Job Seeker's Allowance, Incapacity Benefit, Employment and Support Allowance, Severe Disablement Allowance, Disability Living Allowance, Carer's Allowance, Widow's Benefit, Bereavement Benefit and Income Support for working age claimants (including Pension Credit for males aged 60 to 64).

The number of claimants of individual benefits quoted in the Client Group publication may differ to the numbers published in the individual benefit publications. Claimants have been allocated to statistical groups to give an indication of the main reason why they are claiming benefit. The benefits are arranged hierarchically and claimants are assigned to the first benefit they receive. Thus a lone parent receiving both Income Support and Incapacity Benefit would be assigned to the 'Employment & Support Allowance and incapacity benefits' group. For this reason, the 'Lone parent' group will not contain all lone parents claiming Income Support. The statistical group hierarchy is given in the table below.

Statistical group	Benefit being claimed
Job Seeker	Job Seeker's Allowance
Employment and Support Allowance and incapacity benefits	Employment & Support Allowance, Incapacity Benefit or Severe Disablement Allowance
Lone Parent	Income Support with a child aged under 16 and no partner
Carer	Carer's Allowance
Others on income related benefit	Other Income Support or Pension Credit
Disabled	Disability Living Allowance or Attendance Allowance
Bereaved	Bereavement Benefit or Widow's Benefit
Claiming State Pension only	State Pension

The age at which women reach State Pension age is gradually increasing from 60 to 65 between April 2010 and April 2020. The changes will introduce a small increase to the number of working age benefit claimants and a small reduction to the number of pension age claimants.

Facts and Figures

Between May 2014 and May 2015 the working age client group has decreased by 2,550 in total. This is largely as a result of a decrease in Working Age Job Seekers by 10,630. In the 'Other' category the number of disabled people has increased by 1,120 and the number of carers has increased by 1,740. The number of Employment and Support Allowance and incapacity benefits has also increased by 6,510.

Table 5: Working Age Client Group by Statistical Group

Date	Statistical group								Total
	Job Seeker	Employment and Support Allowance and incapacity benefits	Lone Parent	Carer	Others on income related benefit	Disabled	Bereaved

2. Pension Age Benefits

2.1 State Pension

Background Information

State Pension (SP) was introduced on 1st January 1909 and is paid to people who have reached the State Pension age and who fulfil the residency and contributions conditions. The State Pension age for men is 65 whilst the State Pension age for women born on or after 6th April 1950 but before 6th April 1955 is rising from 60 to 65 between 2010 and 2020. The State Pension age for women born on or after 6th April 1955 but before 6th April 1959 will be 65. State Pension age will increase for both men and women from age 65 to 68 between 2024 and 2046.

Further information is available in Annex 1 and from <http://www.nidirect.gov.uk/state-pension>.

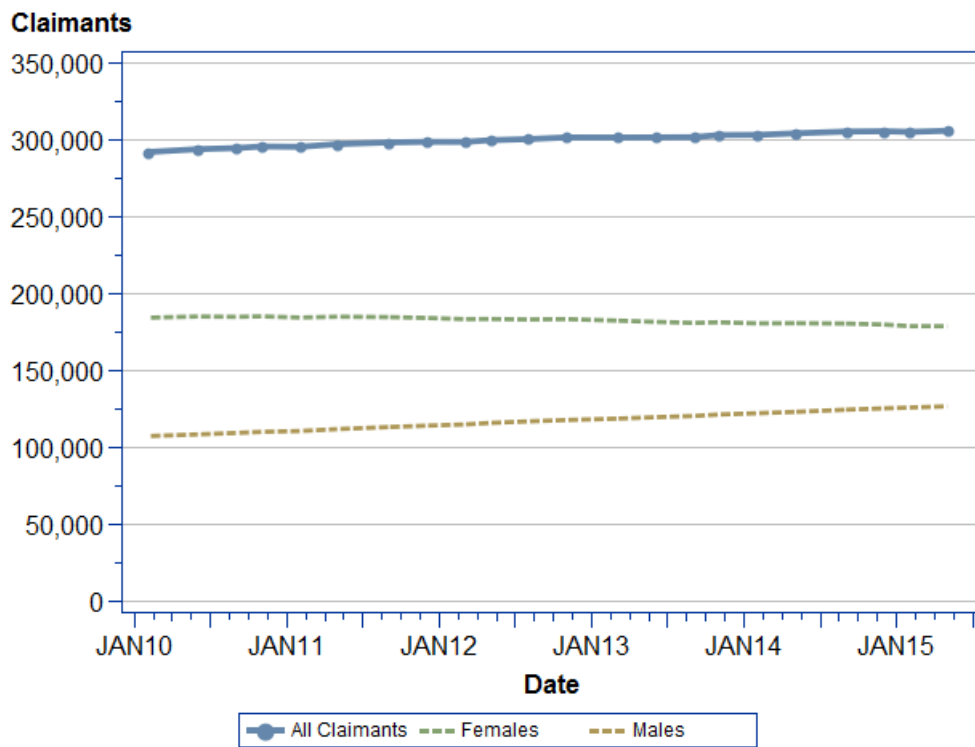

Facts and Figures

At May 2015, there were 306,370 claimants of State Pension, a rise of 1,700 on a year earlier. Of these, 41% of claimants were men and 59% women.

Table 6: State Pension Claimants by Category

Date	All Claimants	Gender of claimant		
		Female	Male	
2010	February	292,500	184,770	107,730

2.2 Pension Credit

Background Information

Pension Credit (PC) was introduced on 6th October 2003 and replaced Minimum Income Guarantee (MIG). In the case of a couple, either may claim if both are of qualifying age but only one partner can get Pension Credit at any one time. Only one member of a couple needs to be of eligible age to claim Pension Credit (PC).

For people aged over the female State Pension age, the Guarantee Credit element guarantees an income at a set level. People aged 65 or over (and couples where one member is 65 or over) may also be entitled to Savings Credit if they have modest income from savings, investments or a second pension.

The age at which customers become entitled to Pension Credit is increasing in line with the age at which women reach State Pension age. This will gradually increase from 60 to 66 between April 2010 and April 2020. The changes will introduce a small reduction to the number of Pension Credit claimants over time as the eligible age increases.

Further information is available in Annex 1 and from <http://www.nidirect.gov.uk/pension-credit>.

Facts and Figures

At May 2015, there were 84,730 claimants of Pension Credit (103,830 including partners), a fall of 4,130 since May 2014.

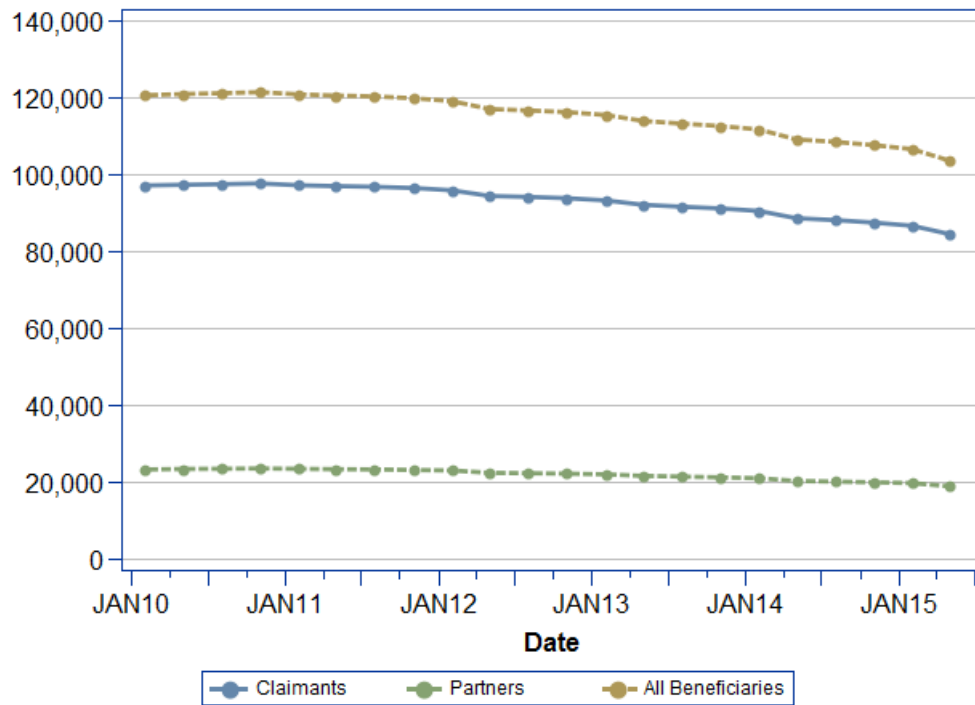

Of all beneficiaries (claimants and partners) 52% were female, 48% were male. Of all claimants 58% were female and 42% were male.

Pension Credit is continuing to decrease, mainly due to the increase in the State Pension amounts and the gradual increase in the pension age.

Table 7: Pension Credit Claimants and Partners

	Date	Claimants	Partners	All Beneficiaries
2010	February	97,380	23,480	120,860

http://www.dsdni.gov.uk/index/stats_and_research/benefit_publications.htm

2.3 Pensioner Client Group

Background Information

Data collected through the administration of individual 'key' benefits are merged together to create 'Client Group' data. Each customer is classified just once. This gives an estimate of the overall number of customers claiming benefit. The client groups are 'Clients of working age' and 'Clients of pension age'.

The 'key' benefits for the Pension Age Client Group are State Pension, Pension Credit, Attendance Allowance, Widow's Benefit, Disability Living Allowance, Incapacity Benefit, and Severe Disablement Allowance.

The number of claimants of individual benefits quoted in the Client Group publication may differ to the numbers published in the individual benefit publications. Claimants have been allocated to a pensioner statistical group based on whether claiming State Pension/Pension Credit and whether disabled. A customer is classed as disabled if claiming Attendance Allowance or Disability Living Allowance.

The age at which women reach State Pension age is gradually increasing from 60 to 65 between April 2010 and April 2020. The changes will introduce a small increase to the number of working age benefit claimants and a small reduction to the number of pension age claimants.

Facts and Figures

At May 2015 there were 310,950 claimants in the Pensioner Client Group, an increase of 1,190 since May 2014. Of these, 26% were in receipt of Pension Credit. Of these Pension Credit claimants, 70% were also claiming Attendance Allowance or Disability Living Allowance.

Table 8: Pensioner Client Group by Pensioner Statistical Group

Disabled and Carer's Benefits

3.1 Disability Living Allowance

Background Information

Disability Living Allowance (DLA) provides contribution towards the disability-related extra costs of severely disabled people who claim help with those costs before the age of 65. DLA has two components which can be paid together or on their own:

A care component - for people who have needed help with personal care (i.e. attention in connection with their bodily functions and/or continual supervision to avoid substantial danger to themselves or others) for at least 3 months (the 'qualifying period') and are likely to go on needing that help for at least a further 6 months (the 'prospective test'). The care component is paid at three rates – Higher, Middle and Lower.

A mobility component - for people who have had walking difficulties for at least 3 months and are likely to continue to have those difficulties for at least a further 6 months. It is paid at two rates – Higher and Middle.

Further information is available in Annex 1 and from <http://www.nidirect.gov.uk/disability-living-allowance>.

Facts and Figures

At May 2015, 205,610 people were receiving Disability Living Allowance (not including suspended cases), a rise of 7,300 on a year earlier. Of these, 49% were male and 51% female. Both male and female recipients are rising, males by 4,080 and females by 3,220 since May 2014.

Table 9: Disability Living Allowance Recipients by Claim Component

Figure 9: Disability Living Allowance recipients by claim component time series

Latest statistical data available from:

http://www.dsdni.gov.uk/index/stats_and_research/benefit_publications.htm

3.2 Attendance Allowance

Background Information

Attendance Allowance (AA) provides a non-contributory, non-means-tested and tax-free contribution towards the disability-related extra costs of severely disabled people who are aged 65 and over when they claim help with those costs. It can be awarded for a fixed or an indefinite period and is paid at 2 rates – Higher and Lower.

Further information is available in Annex 1 and from <http://www.nidirect.gov.uk/attendance-allowance-people-with-disabilites>.

Facts and Figures

At May 2015, there were 52,580 people receiving Attendance Allowance (excluding suspended cases), a fall of 630 on a year earlier. Of these, 36% were male and 64% female. The male recipients have increased by 30 and the female recipients have decreased by 670 in the year to May 2015.

At May 2015, 65% of recipients were aged 80 or over.

Table 10: Attendance Allowance Claimants and Recipients

	Date	Claimants	Recipients
2010	February	63,200	57,850
	May	62,910	57,570

Figure 10: Attendance Allowance claimants and recipients time series

Latest statistical data available from:

http://www.dsdni.gov.uk/index/stats_and_research/benefit_publications.htm

3.3 Carer's Allowance

Background Information

Carer's Allowance (CA) is a non-contributory benefit for people:

- who look after a person for at least 35 hours a week
- who are not gainfully employed (i.e. not earning more than £110 per week after certain deductions)
- who are 16 and over
- who are not in full-time education
- the person that is being cared for must be already getting one of these benefits (1) Disability Living Allowance - Middle or High rate care (2) Attendance Allowance (3) Constant Attendance Allowance at or above the normal maximum rate with an Industrial Injuries Disablement Benefit, or basic (full day) rate with a War Disablement Pension (4) Armed Forces Independence Payment

Some claimants are entitled to receive CA, because they satisfy the conditions listed above, but do not actually receive a payment. This is because they receive another benefit (e.g. Incapacity Benefit for people of working age, or State Pension for people of State Pension age) which equals or exceeds their weekly rate of CA.

Further information is available in Annex 1 and from <http://www.nidirect.gov.uk/carersallowance>.

Facts and Figures

At May 2015, there were 42,480 people receiving Carer's Allowance a rise of 1,990 on a year earlier. Of these, 33% were male and 67% female. The male recipients have increased by 530 and the female recipients have increased by 1,460 in the year to May 2015.

An increase in the number of Carer's Allowance cases may coincide with an increase in Disability Living Allowance claimants, as it is a qualifying criteria.

Table 11: Carer's Allowance Claimants and Recipients

	Date	All Claimants	Recipients	Credits Only

MobA	Mobility Allowance
NINIS	Northern Ireland Neighbourhood Information Service
NINO	National Insurance Number
NISRA	Northern Ireland Statistics & Research Agency
ONS	Office for National Statistics

PC – Pension Credit

PCA – Personal Capability Assessment

SDA – Severe Disablement Allowance

SP – State Pension

SSA – Social Security Agency

SSP – Statutory Sick Pay

UC – Universal Credit

WCA – Work Capability Assessment

NOTES

1. Benefit Summary Statistics

The Department for Social Development (DSD) publish the Benefits Statistics Summary Bulletin each quarter. The DSD Benefit Statistics Summary brings together key National Statistics on the main Social Security Agency (SSA) administered benefits.

In addition to the summary document, there are a large number of tables which enable the user to delve into further detail of each benefit. These are provided to the user as:

- Supplementary benefit statistics tables – for each Benefit Statistics Summary Bulletin release, excel spreadsheets are produced containing a large number of tables with much more detailed breakdowns for each SSA administered benefit and also client group analysis.
- Jobseeker Statistics for Northern Ireland statistics are available via Nomis (<https://www.nomisweb.co.uk/Default.asp>)
- The Department for Work and Pensions (DWP) statistics are available at <https://www.gov.uk/government/organisations/department-for-work-pensions>
- Geographic statistics are available on NINIS <http://www.ninis.nisra.gov.uk/>

2. National Statistics Code of Practice

In June 2013, the United Kingdom Statistics Authority designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods; and
- are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice shall continue to be observed.

The letter to confirm designation of the bulletin as a National Statistic:

<http://www.statisticsauthority.gov.uk/assessment/assessment/assessment-reports/confirmation-of-designation-letters/letter-of-confirmation-as-national-statistics---assessment-report-211--1-.pdf>

The full assessment report is also available:

<http://www.statisticsauthority.gov.uk/assessment/assessment/assessment-reports/assessment-report-211---statistics-on-housing-and-benefits-in-northern-ireland.pdf>

Detailed policy statements and statement of compliance with the pre-release access to official statistics order 2008 are available:

http://www.dsdni.gov.uk/index/stats_and_research/about-national-statistics-protocols-compliance.htm

DSD would like to hear your views on our statistical publications. If you use any of our statistics publications, we would be interested in hearing what you use them for and how well they meet your requirements. Please complete feedback at https://www.surveymonkey.com/s/Ben_Stats_User_Survey or email asu@dsdni.gov.uk to request a copy of the questionnaire.

3. Data Source and Quality

All statistics are based on 100% extracts from the benefit administrative systems. Data is partially validated and is deemed of sufficiently high quality to report on. Data is extracted at 2 weekly, 4 weekly or 6 weekly intervals. Data is represented as end of reported month to aid presentation, but actual extract data will not generally be exactly this date. The statistics show the number of people claiming benefit on the extract date.

Client Group statistics are based on a database that combines all data from all scans. The number of claimants of individual benefits quoted in the Client Group publication may differ to the numbers published in the individual benefit publications.

As data is taken from live administrative systems, it relies on the customer reporting correct information about themselves and staff correctly inputting this data into the system. This does not always occur. Recent estimates indicate that approximately 1.3% of expenditure on benefits is misallocated due to Fraud and Error. Additional errors that do not result in an incorrect payment can also occur. The Department engages in initiatives to reduce the amount of Fraud and Error in the benefit systems on an ongoing basis.

Quality assurance of the data begins as soon as the extracts from administrative systems are received and continues right through to publication. The initial quality focus is on the volume of cases in each file. Subsequent assurance examines individual fields in detail to ensure that any unexpected changes are understood and represent genuine changes.

4. Rounding/Disclosure control

The accuracy of statistics may be slightly effected by rounding and/or disclosure control. Even when data (either administrative or sample) do not contain NINO, name and address it may still be possible to identify someone. Say, for example, a data table showed disability type, by ethnicity, within small geographic areas. Some of the cells in the table may only have one person in. It is possible in such cases for personal and sensitive information to be deduced. This is data disclosure and in DSD steps are taken to ensure that it doesn't happen. As an additional protective measure, details of the disclosure control methodology are not published.

5. Statistical groups

DSD has a typology to define Statistical Groups within the client group classifications. The aim of the Statistical Group typology is to present each person by the main reasons they are in contact with the Department. Like the client group classification, each client is classified just once, permitting the estimation of the total number of people claiming one or more benefits. The Statistical Group hierarchy is:

- a] Jobseeker
- b] Employment and Support Allowance and incapacity benefits
- c] Lone parents
- d] Carers
- e] Other income-related benefits
- f] Disabled
- g] Bereaved
- h] State Pension only recipients

From February 2009 the "incapacity benefits statistical group" includes Employment and Support Allowance (ESA). ESA replaced Incapacity Benefit and Income Support paid on the grounds of incapacity for new claims from 27th October 2008.

6. Jobseeker's Allowance figures at ONS

The preferred source of numbers for Jobseeker's Allowance is the DETI/ONS claimant count figure; these are more up to date and contain clerical cases. However, the reason we use the DSD JSA figures is that they are consistent with the other benefits used to produce DSD National Statistics, and permit a wider set of breakdowns. The DETI figures are available from <http://www.detini.gov.uk/deti-stats-index/stats-surveys/stats-claimant-count.htm> and also via Nomis (<https://www.nomisweb.co.uk/Default.asp>).

7. Welfare Reform

The Lone Parent Obligation policy came into effect from 24th November 2008; Lone Parents (LPs) with a youngest child aged 12 or over were no longer able to make a new or repeat claim for Income Support (IS) solely on the basis of their parental status. Existing IS LPs with a youngest child aged 12 or over are having their eligibility removed over a period of time commencing 2nd March 2009. From October 2009, this policy was extended to LPs with a youngest child aged 10 or 11 and from October 2010, the policy was extended to LPs with a youngest child aged 7 or over.

Many affected LPs will leave IS and claim Jobseeker's Allowance (JSA). However, there are exceptions to these rules where the youngest child can legitimately be over the ages mentioned above. Similarly, some

former LPs remain on IS for other reasons (e.g. they have a long term caring responsibility and claim Carer's Allowance).

The age at which women reach State Pension age will gradually increase from 60 to 65 between April 2010 and April 2020. The changes will introduce a small increase to the number of working age benefit recipients and a small reduction to the number of pension age recipients.

8. Known Issues, Changes and Revisions to the Statistical Summary

Changes for this release

August 2015 – From 1 April 2015, 11 new councils took over from the previous 26. Therefore a new table has been added to the supplementary tables to show the number of claimants by New Local Government District (LGD2014).

Previous Changes

May 2015 – The mid year population estimates, which are used for some of the tables, updated to the most recent available (2013). Estimates can be found on the following Northern Ireland Statistics and Research Agency (NISRA) page:

<http://www.nisra.gov.uk/demography/default.asp17.htm>

May 2015 – The Central Postcode Directory, which is used to work out which Local Government District or Assembly Area each customer lives in, updated to current year (2015). This update ensures more customers are allocated to the correct area and there are fewer “Unknown” areas. Details can be found on the NISRA website: <http://www.nisra.gov.uk/geography/postcode.htm>

May 2013 - Age of Youngest Child Revision: The methodology for calculating the age of the youngest child has been amended to be more accurate. Figures now truly reflect the youngest child's age at the date the data is extracted from the benefit systems. The tables in the publications issued in May 2013 and onwards reflect this change for Income Support, Jobseekers Allowance and Employment & Support Allowance.

May 2013 – Data cut off prior to 2007 in order to improve publication. Historical data can be found on publication issued in February 2013. http://www.dsdni.gov.uk/statistics_summary_nov_12_-_final.doc

August 2013 – Summary of all claimants of key benefits by age group (including children) added to Client Group Analysis supplementary tables.

February 2014 – Data cut off prior to 2008 in order to improve publication. Historical data can be found on publication issued in February 2014. http://www.dsdni.gov.uk/benefits_statistics_summary_aug13.doc

November 2014 – The Employment and Support Allowance (ESA) supplementary tables have a new table inserted detailing the Average Weekly Benefit (Table 7).

November 2014 - Due to low numbers the Incapacity Benefit and Severe Disablement Benefit supplementary tables will no longer be updated after this release.

November 2014 - The Income Support (IS) supplementary tables have been amended to give IS claimants by Benefit Processing Centre instead of Office (Table 10).

November 2014 - The Client Group Analysis supplementary tables have been amended by the addition of extra benefit combinations (Tables WA5 and PA6).

February 2015 – Data cut off prior to 2010 in order to improve publication. Historical data can be found on publication issued in November 2014. http://www.dsdni.gov.uk/benefits_statistics_summary_aug14_.doc

February 2015 – Supplementary tables for Incapacity Benefit (IB) and Severe Disablement Allowance (SDA) no longer being published. Historical data can be found on publication issued in November 2014.

http://www.dsdni.gov.uk/benefits_statistics_summary_aug14_.doc

February 2015 – Detailed explanations of benefits moved from individual benefit sections to Annex 1. Within each benefit section, Background Information and Facts and Figures sections added with improved commentary.

9. Uses and users of the Summary

The Summary Bulletin and the supplementary tables provide definitive numbers of people claiming benefits in Northern Ireland. To meet customers' needs, figures are provided for both claimants (includes people in paid receipt of the benefit and those where entitlement has been suspended) and recipients (people actually in paid receipt of the benefit). The statistics can be used for:

- exploring the characteristics of those claiming benefit

- providing the evidence base for assessing the potential effect of policy options
- policy development and evaluation
- answering Assembly Questions and Freedom of Information requests
- producing other statistical series eg geographical breakdowns for the Northern Ireland Neighbourhood Information Service
- academic research

As the Summary Bulletin is released via the internet, information is not available on all the varied uses and users of the statistics. However, known users include the Department for Social Development, Department for Work and Pensions, other Government Departments and academics.

10. Notification of future changes to the Summary

New tables for New Local Government District (LGD2014) to include more detailed information.

11. Great Britain Statistics

Benefit statistics to cover Great Britain (England, Scotland and Wales) only are produced by the Department for Work and Pensions (DWP) and are available here:

<http://research.dwp.gov.uk/asd/index.php?page=tabtool>

12. Other National and Official Statistics issued by the Department for Social Development

Other National and Official Statistics produced by the Department for Social Development can be found on the DSD website at the following link:

http://www.dsdni.gov.uk/index/stats_and_research.htm

Annex 1

A1.1 Jobseeker's Allowance

Jobseeker's Allowance (JSA) was introduced on 7th October 1996 and has both contributory and income-related elements. It is paid to people under State Pension age who are available for and actively seeking work.

To get Jobseeker's Allowance you must be:

- available for, capable of and actively seeking work
- aged 18 or over but below State Pension age
- working less than 16 hours per week on average, depending on the amount of your wage
- not be in certain types of education
- not be receiving certain other benefits
- resident in Northern Ireland

Jobseeker's Allowance isn't normally paid to 16 or 17 year olds, except in special cases.

Further information is available from <http://www.nidirect.gov.uk/jobseekers-allowance>.

A1.2 Employment and Support Allowance

From 27th October 2008, Employment & Support Allowance (ESA) replaced Incapacity Benefit and Income Support paid on the grounds of incapacity for new claims.

When a new customer applies for ESA they will initially enter an assessment phase lasting 13 weeks. During this phase the customer will have their ability to work assessed to determine their entitlement, this is called the Work Capability Assessment (WCA). During the assessment the customer will be paid based on the Jobseeker's Allowance personal allowance (subject to customers satisfying the relevant contribution condition and/or income tests).

ESA claimants' longer term entitlement to claim the benefit is dependent on the outcome of the WCA. Atos Healthcare are contracted by the Department for Social Development (DSD) to conduct the WCA, however the final outcome from the WCA will be made by a decision maker within the Social Security Agency, DSD. The possible outcomes of the WCA are that claimants can be assessed as: a) suitable for the ESA Work Related Activity Group (where work is feasible in the short to medium term), b) suitable for the ESA Support Group (for those people with the most severe conditions), or c) fit for work and therefore not entitled to continue claiming, although there is a right of appeal.

When ESA was initially introduced, it was announced that existing Incapacity Benefit claimants (including Income Support on the grounds of incapacity) would be reassessed. Reassessment started gradually from October 2010 (with a small pilot), with full national implementation from February 2011 to 2014. These claimants would then be subject to the standard conditions of an ESA claim i.e. to undertake a work capability assessment.

Further information is available from <http://www.nidirect.gov.uk/employment-and-support-allowance-people-with-disabilities>.

A1.3 Incapacity Benefit and Severe Disablement Benefit

Incapacity Benefit replaced Sickness Benefit and Invalidity Benefit from 13th April 1995. It is paid to people who are assessed as being incapable of work and who meet certain contribution conditions.

Assessment is through the Personal Capability Assessment (PCA) which measures the claimant's ability to perform a range of every-day activities. Incapacity Benefit was replaced by Employment and Support Allowance for new claims from October 2008. Under the ESA regime, new claimants have to undergo the

Work Capability assessment. From February 2011 Incapacity Benefit recipients also began to undertake this assessment (a small pilot started in October 2010). The process of re-assessment was extended to include Severe Disablement Allowance customers in December 2013.

Claimant's who are assessed as being incapable of work and do not meet the contribution conditions can receive 'IB Credits only'. They do not receive any IB payment but their National Insurance account is credited for the duration of their claim. They are referred to as claimants but are not beneficiaries (they are getting no monetary benefit). For those who do meet the contribution conditions there are three rates of Incapacity Benefit. There are two short-term rates: the Lower rate (IBST (L)) is paid for the first 28 weeks of sickness and the Higher rate (IBST (H)) for weeks 29 to 52. The Long-term rate (IBLT) applies to those who have been sick for more than a year. The Higher short-term rate and the Long-term rate are treated as taxable income.

People who reached State Pension age before 13th April 1995, who were in receipt of Invalidity Benefit, were able to get Incapacity Benefit for up to five years beyond pension age. This means that by May 2000 the entitlement of all these cases should have ceased. The short term rate is now payable for people over pension age for up to a year, but only if incapacity began before they reached pension age.

Statutory Sick Pay (SSP) can be paid by the employer for up to 28 weeks. If the incapacity continues beyond the 28 week period, the period of SSP will be regarded as the customer having spent 28 weeks on the short term low rate. The claimant/ beneficiary will be eligible to receive the short term higher rate from the onset of their claim to incapacity benefit. The rate of Statutory Sick Pay paid by the employer is the same as the IB short term higher rate.

Claimant's who are assessed as being capable of work and do not meet the contribution conditions can receive 'IB Credits only'. They do not receive any IB payment but their National Insurance account is credited for the duration of their claim. They are referred to as claimants but are not recipients (they are not receiving a monetary benefit).

Further information is available from <http://www.nidirect.gov.uk/index/information-and-services/people-with-disabilities/financial-support-for-people-with-disabilities/incapacity-benefit-people-with-disabilities.htm>

Severe Disablement Allowance (SDA) replaced Non-Contributory Invalidity Pension and Housewives Non-Contributory Invalidity Pension from 29 November 1984. Until April 2001, people who were incapable of work and did not satisfy the contribution conditions for Incapacity Benefit (IB) could get SDA.

Until April 2001, people who were incapable of work and did not satisfy the contribution conditions for Incapacity Benefit (IB) could get SDA. People had to be aged between 16 and 65 when they made their claim. There is no upper age limit for receiving the allowance once it has been awarded. People had to have been incapable of work for at least 28 weeks. Anyone who became incapable of work before their 20th birthday could qualify on this basis alone, people who became incapable of work after their 20th birthday also had to prove they had been 80% disabled for at least 28 weeks.

IB was replaced by Employment and Support Allowance (ESA) for new claims from October 2008. In October 2010 a pilot commenced to move existing IB customers to ESA by reassessing their eligibility to the benefit, with the full reassessment starting in February 2011. It was extended to SDA in December 2013.

Further information is available from <http://www.nidirect.gov.uk/incapacity-benefit-people-with-disabilities> and <http://www.nidirect.gov.uk/severe-disablement-allowance>.

A1.4 Income Support

Income Support is intended to help people on low incomes who do not have to be available for employment. It can normally be claimed by people who are:

- aged 16 or over;
- not working or working under 16 hours per week (and/or with a partner working under 24 hours);
- not required to be available for full-time employment;
- and in receipt of insufficient income to meet prescribed needs.

The main types of people who receive it are lone parents, the long and short-term sick, people with disabilities and other special groups such as carers.

Income Support (IS) was introduced on 11th April 1988 and is an income-related benefit that can be claimed by adults under State Pension age that work fewer than 16 hours a week and have insufficient income to meet their needs. Prior to the introduction of Pension Credit in October 2003, IS was available to people aged 60 and over.

From 27th October 2008, Employment & Support Allowance (ESA) replaced Incapacity Benefit and Income Support paid on the grounds of incapacity for new claims. Migration of existing Disabled Income Support customers began in February 2011. From 24th November 2008, Lone Parents (LPs) with a youngest child aged 12 or over were no longer able to make a new or repeat claim for IS solely on the basis of their parental status. Existing IS LPs with a youngest child aged 12 or over had their eligibility removed over a period of time commencing 2nd March 2009. From October 2009, this policy was extended to LPs with a youngest child aged 10 or 11 and from October 2010, the policy was extended to LPs with a youngest child aged 7 or over.

Further information is available from <http://www.nidirect.gov.uk/income-support>

A1.5 State Pension

State Pension (SP) was introduced on 1st January 1909 and is paid to people who have reached the State Pension age and who fulfil the residency and contributions conditions. The State Pension age for men is 65 whilst the State Pension age for women born on or after 6th April 1950 but before 6th April 1955 is rising from 60 to 65 between 2010 and 2020. The State Pension age for women born on or after 6th April 1955 but before 6th April 1959 will be 65. State Pension age will increase for both men and women from age 65 to 68 between 2024 and 2046.

The two categories of contributory State Pension are:

- Category A - based on a person's own National Insurance contributions, and
- Category B - dependant on the contributions paid by a spouse/civil partner.

A composite pension (Category ABL) based on both the personal and spouse's/civil partner's contributions up to a maximum amount of 60% of the standard category A rate.

Category AB pension is based on the personal and spouse's/civil partner's contributions.

A Category BL pension is based solely on the spouse's/civil partner's contributions.

The categories of non-contributory State Pension are:

- Category C - payable to people over State Pension age on 5th July 1948. The widow of a man who was over 65 in July 1948 can also get a category C pension.
- Category D - is awarded to people who:
 - reach the age of 80
 - satisfy certain residency conditions, and
 - failed to qualify for a category A or B pension, or
 - receive less than the non-contributory rate

Further information is available from <http://www.nidirect.gov.uk/state-pension>.

A1.6 Pension Credit

Pension Credit (PC) was introduced on 6th October 2003 and replaced Minimum Income Guarantee (MIG). In the case of a couple, either may claim if both are of qualifying age but only one partner can get Pension

Credit at any one time. Only one member of a couple needs to be of eligible age to claim Pension Credit (PC).

For people aged over the female State Pension age, the Guarantee Credit element guarantees an income at a set level. These amounts may be more if you are disabled, have caring responsibilities or certain housing costs, such as mortgage interest payments. People aged 65 or over (and couples where one member is 65 or over) may also be entitled to Savings Credit if they have modest income from savings, investments or a second pension.

The age at which customers become entitled to Pension Credit is increasing in line with the age at which women reach State Pension age. This will gradually increase from 60 to 66 between April 2010 and April 2020. The changes will introduce a small reduction to the number of Pension Credit claimants over time as the eligible age increases.

Further information is available from <http://www.nidirect.gov.uk/pension-credit>.

A1.7 Disability Living Allowance

Disability Living Allowance (DLA) provides a non-contributory, non means-tested and tax-free contribution towards the disability-related extra costs of severely disabled people who claim help with those costs before the age of 65. It replaced and extended Attendance Allowance (AA) and Mobility Allowance (MobA) for people in this age group from April 1992. DLA has two components which can be paid together or on their own:

A care component - for people who have needed help with personal care (i.e. attention in connection with their bodily functions and/or continual supervision to avoid substantial danger to themselves or others) for at least 3 months (the 'qualifying period') and are likely to go on needing that help for at least a further 6 months (the 'prospective test'). The care component is paid at three rates:

- Higher rate - for people who need help with personal care throughout the day and during the night;
- Middle rate - for people who need help with personal care throughout the day or during the night;
- Lower rate - for people who need help with personal care during some of the day or are so severely disabled that they cannot prepare a cooked main meal for themselves if they have the ingredients.

A mobility component - for people who have had walking difficulties for at least 3 months and are likely to continue to have those difficulties for at least a further 6 months. It is paid at two rates:

- Higher rate - for people who are physically unable, or virtually unable, to walk;
- Lower rate - for people who can walk, but need guidance or supervision from another person when walking out of doors on unfamiliar routes.

If you go into hospital, nothing will usually happen to your Disability Living Allowance (DLA) straight away.

If DLA is paid for someone aged 16 or over, it will usually stop (be suspended) after the person has been in hospital for four weeks. If DLA is paid for a child under 16, it will usually stop (be suspended) after the child has been in hospital for 12 weeks.

Further information is available from <http://www.nidirect.gov.uk/disability-living-allowance>.

A1.8 Attendance Allowance

Attendance Allowance (AA) provides a non-contributory, non-means-tested and tax-free contribution towards the disability-related extra costs of severely disabled people who are aged 65 and over when they claim help with those costs. It can be awarded for a fixed or an indefinite period and is paid at 2 rates – Higher and Lower.

To qualify, people must have needed help with personal care (i.e. attention in connection with their bodily functions and/or continual supervision to avoid substantial danger to themselves or others) for at least 6 months (the 'qualifying period').

The allowance is paid at two rates:

- Higher rate - for people who need help with personal care throughout the day and during the night;
- Lower rate - for people who need help with personal care throughout the day or during the night.

People who are terminally ill (i.e. have a progressive disease from which death can reasonably be expected within 6 months) automatically qualify for the higher rate. They do not have to satisfy the qualifying period.

Further information is available from <http://www.nidirect.gov.uk/attendance-allowance-people-with-disabilites>.

A1.9 Carer's Allowance

Carer's Allowance (CA) is a non-contributory benefit for people:

- who look after a severely disabled person for at least 35 hours a week
- who are not gainfully employed (i.e. not earning more than £100 per week after certain deductions) and
- who are 16 and over and not in full-time education

The severely disabled person must be getting either the highest or middle rate of Disability Living Allowance care component, or Attendance Allowance, or a Constant Attendance Allowance at the maximum rate under the War Pensions or Industrial Injuries Scheme.

To claim CA the customer has to be aged 16 or over.

From April 2003 Carer's Allowance became the new name for Invalid Care Allowance.

Some claimants are entitled to receive CA, because they satisfy the conditions listed above, but do not actually receive a payment. This is because they receive another benefit (e.g. Incapacity Benefit for people of working age, or State Pension for people of State Pension age) which equals or exceeds their weekly rate of CA. Where the overlapping benefit paid is less than the weekly rate of CA, only the amount of CA which exceeds the amount of the overlapping benefit is paid. Carers who are on low income and entitled to Carer's Allowance (whether in payment or not) may receive extra money with their Income Support/Jobseeker's Allowance/ Pension Credit/Housing Benefit/Council Tax Benefit.

Further information is available from <http://www.nidirect.gov.uk/carersallowance>.
