

BSO BUSINESS PLAN 2019/20

Year Two of BSO Corporate Plan 2018/21

Introduction to BSO Annual Business Plan 2019-20

Background

The Business Services Organisation (BSO) was established on 1 April 2009 to provide a wide range of business and specialist professional services to the wider Health and Social Care (HSC) environment. Following on from the celebration of the 70th anniversary of the NHS in 2018, this will be a significant year for BSO as April 2019 marks the 10th anniversary of its establishment. The functions and duties of the BSO are set out in the Management Statement which is available on our website: www.hscbusiness.hscni.net. Our organisation is an integral part of the HSC. This requires us to be familiar with the priorities which relate directly to the health and well-being of the public and to understand our role in delivering these improvements. The BSO is conscious of the strategic context within which it operates and aims to support Department of Health (DoH) priorities, especially the 'Making Life Better' ¹ public health framework, the over-arching Programme for Government and the vision set out in 'Health and Wellbeing 2026: Delivering Together'. ² We aim to do this through a framework of good governance which takes account of our social and environmental responsibilities. The DoH launched a long-term strategy for the HSC workforce in May 2018³ and the BSO will play its part in co-operation with colleagues to make the HSC a rewarding and fulfilling place to work for everyone, with the best possible staffing and expertise levels.

At the same time, we are very aware of the particular challenges presented by the longer-term economic environment to our customers as well as ourselves. For the HSC, 2019-20 looks as if it will be another exceptionally challenging financial year. Budget pressures are expected to continue to intensify significantly and the projected squeeze on public funding in Northern Ireland is unprecedented. We are also very conscious of feedback received from our customer organisations to the effect that the provision of high quality, value-adding services by BSO underpinned by demonstrable value-for-money is their priority.

In terms of the economy, at the time of writing, both the UK government and the EU have announced their EU Exit plans. While there is still much uncertainty at national and more local level with regard to the terms and implications of an EU Exit, BSO has worked along with DoH and HSC colleagues to ensure collective preparedness for a 'no-deal' scenario. The services within BSO, particularly Procurement and Logistics, have planned their business for 2019-20 on the basis that the impact of EU Exit will remain at levels assumed in December 2018. In addition, Northern Ireland continues to operate without a devolved administration since January 2017.

Transformation of HSC

The HSC in general faces two other key challenges. The way in which the system is organised has been widely acknowledged as being outdated and not fit-for-purpose. In addition, populations are ageing, resources are constrained, technology is advancing and patient expectations continue to rise. Transformation can deliver more responsive and better quality care. Along with the draft Programme for Government (PfG), the roadmap to a better service is clearly described in the '*Delivering Together*' document. The outcomes in PfG are long-term, visionary and aspirational, and, although PfG is cross-cutting, DoH has lead responsibility for the following outcome: "*We enjoy long, healthy, active lives.*"

BSO has played its part in taking forward the transformational changes required in HSC and the Chief Executive of BSO is a member of the **Transformation Implementation Group**, along with the Top Management Team in the DoH, other HSC Chief Executives and key stakeholders. BSO has been assigned to the work-stream relating to Social Care Clauses, highlighting the importance of **procurement** as a strategic tool to support health and social care delivery.

Technology will underpin and support transformation processes throughout the HSC. The HSC vision is for a **digital record-in-common** for every citizen in Northern Ireland that facilitates their health and wellbeing throughout their life. This will be known as an **Electronic Health and Care Record (EHCR)** and will be taken forward on a programme basis (entitled **Encompass Programme** which is hosted within BSO), with full implementation due by 2026.

The closure of the Health and Social Care Board (HSCB) was confirmed as a Ministerial priority at the launch of "*Delivering Together*" in October 2016. On 24 January 2018, the Permanent Secretary and HSC Chief Executive advised of the proposal that when the HSCB closes, responsibility for the majority of its functions will move to the Department, but be effected through a host organisation arrangement with BSO, enabling the associated staff to retain HSC terms and conditions. Any final decisions on future operating models for HSC will be subject to business case approval and will

require Ministerial consideration and legislation. In the interim, BSO will continue to work in a partnership approach in the Design Groups with membership drawn from HSCB, PHA, DoH, BSO and staff side bodies to bring forward proposals for improved operational arrangements and transition to those new arrangements. Good progress has been made to date towards the vision of reducing duplication and working as one streamlined HSC system.

Expansion of Shared Services

During 2018-19 the ***NI Public Sector Shared Services Project*** which was established to consider the development of shared services across the entire public sector in Human Resources, Payroll, IT and Finance progressed to recommendations. Initial findings indicated that the BSO provides high-performing, effective and value-for-money services to our customers in Northern Ireland. This has been borne out in the concluding recommendations of the project in September 2018 that each sectoral area (Health, Education, NI Civil Service) should focus on delivering shared services within their own base. BSO will continue to contribute to the proposed direction of travel by participating on HSC specific Shared Services teams and working groups. On 4 March 2019 the Permanent Secretary wrote to HSC Chief Executives expressing his commitment to move to a shared service model for IT. The Chief Executive of the Southern HSC Trust has been asked to act as Senior Responsible Officer for this programme of work. The first task will be to develop a business case to understand more fully the benefits, costs and impacts of the introduction of an IT shared services model within the HSC.

BSO Planning and Performance Monitoring Cycle

As part of its annual planning cycle, each year the BSO holds a series of Strategic and Business Planning Workshops with BSO Board members and senior staff, with account taken of staff and customer feedback to plan our services for the future. Our current Corporate Plan covers a three year period from 2018-21 and includes the Mission, Corporate Objectives and Values which will assist in delivering to the organisational mission over this time period. The mission of BSO is *“to provide high quality business services which support our customers to improve health and well-being”*. An Annual Business Plan will support the Corporate Plan by setting out the key priorities and targets to be delivered during the incoming financial year. There are 30 Key Priorities/Targets with 60 associated Actions grouped under each of the Corporate Objectives which are described in more detail in this Annual Business Plan 2019-20.

A summary of progress on how well the organisation is delivering on its key actions identified within the annual business plan is provided to the BSO Board on a quarterly basis as well as to DoH Sponsor Branch. This is in addition to monthly reporting on performance through the BSO Corporate Balanced Scorecard and other performance reports and presentations to BSO Board.

BSO Corporate Objectives 2018-21

The Plan for 2018-21 is diagrammatically represented on page 6 of this document. The BSO Corporate Objectives aligned with our Values for the period 2018-21 will continue to be the focus of everything we do in the second year of our three-year Corporate Plan:

- **Deliver High Quality, Valued Services (*Respect; Professionalism*);**
- **Develop Our Services in Partnership with Our Customers (*Partnership; Trust*) ;**
- **Demonstrate Continuous Improvement in Pursuit of Excellence (*Professionalism; Accountability*)and**
- **Help Our People Excel at What We Do (*Professionalism; Accountability; Respect; Trust*).**

We anticipate a further alignment of BSO corporate values with the HSC-wide Values proposed as part of the HSC Collective Leadership Strategy⁴ launched in October 2017 as one of the priorities identified under *Delivering Together*.

RESOURCING THE PLAN 2019/20

1. Introduction

- 1.1 This section of the plan sets out the anticipated financial context for 2019/20 and describes the expected income and expenditure position for the year.

2. Income

- 2.1 BSO earns its income from provision of services to a range of HSC organisations including the HSC Board, HSC Trusts and other HSC Agencies and Bodies. It also administers funds on behalf of other organisations such as DoH and the HSC Board.
- 2.2 A BSO Service Offering, which contains information on all of the services we deliver to clients, is compiled and issued to customers on an annual basis. This document, importantly, outlines the efficiencies that each service area offers to its client base. BSO undertakes a series of bi-lateral meetings with clients to discuss services provided and any cash and non-cash efficiencies for the new financial year. These efficiencies are incorporated into the final 2019/20 Service Offering which drives the preparation of the Service Level Agreements (SLAs) for 2019/2020.
- 2.3 The expected income from HSC SLAs is £56m. This includes a level of assumed pay and price uplift up of 6.63% for 2019/20. The pay and price uplift for 2019/20 has been impacted by the significant increase in employers superannuation contributions in 2019/20, as well as the impact of the 2018/19 pay award. Currently we are assuming a 1% pay award for 2019/20 - based on NHS pay agreements the final percentage awarded could be higher but this will impact equally on both income and expenditure and will not therefore affect our break-even projections.

- 2.4 The BSO also receives funding from DoH in respect of the core services it delivers to both the DoH and other HSC Organisations, for example the HSC pensions service and the Clinical Education Centre (CEC). On 30th March 2019, BSO received notification of a 2% reduction to our non ring fenced allocation from the DoH – equating to a reduction of around £70k. We have submitted a savings plan to DoH to address this reduction, and this is reflected in the tables in Annexe A.
- 2.5 In addition to the funding sources described above, there are a number of other areas from which BSO derives income. These include services such as the regional interpreting service, miscellaneous Legal recharges and staff recharges which attract an additional £8m annually.
- 2.6 The BSO, through its Procurement and Logistics Service (PaLS), manages stock issues for the HSC Organisations. This fluctuates with demand and turnover is estimated at c£47m, based on 2018/19 expected full year activity. There is no surplus or deficit anticipated in these transactions.
- 2.7 The regional ITS Programme revenue and capital expenditure, commissioned by the HSC Board, is also administered through the BSO. The revenue expenditure, which is recharged in full to the HSC Board, is expected to be in the region of £15.9m in 2019/20. Any capital expenditure is funded by way of Capital Resource Limit (CRL) funding from DoH and this varies depending on Departmental priorities. Funding for 2018/19 was around £8m.
- 2.8 In addition, the BSO administers expenditure on (Non-Core) Services on behalf of the DoH such as Nursing Bursaries, NI Infected Blood Scheme and Healthy Start programme expenditure. This expenditure is funded by way of RRL funding and is in the region of £20m per annum.

3. Expenditure

- 3.1 This section deals with the projected expenditure in 2019/20. Assumptions around overall cash releasing efficiencies and an estimated inflationary uplift have been incorporated into the overall expenditure budgets.
- 3.2 Detailed budgets will be agreed with BSO Directorates and final budgets will be provided for approval to the BSO Board in May 2019.
- 3.3 It is assumed that the non-core expenditure related to the regional ITS Programme, PaLS Trading and those services administered on behalf of DoH and others will be fully funded.

4. Income and Expenditure Position

- 4.1 Based on the current income assumptions and the anticipated expenditure budgets, the combined income and expenditure position for 2019/20 is shown in Table 1, overleaf.
- 4.2 It should be noted that these figures do not reflect any extension of the services of BSO, as these will be negotiated separately with customers and built into the SLAs.

TABLE 1 – BSO Budgeted Income and Expenditure Position 2019/20

	Core Services	Non Core Services	BSO Total
	£'000	£'000	£'000
Income Sources:			
Management fees / SLAs	55,882		55,882
RRL- core services	7,996		7,996
RRL - non core services		19,677	19,677
Other Income	3,081	4,664	7,745
ITS programme		15,000	15,000
PaLs Trading		47,000	47,000
Total Income	66,958	86,341	153,299
Expenditure:			
Pay and non-pay budgets	66,958		66,958
Administered expenditure		86,341	86,341
Total Expenditure	66,958	86,341	153,299
Surplus / (Deficit)	0	0	0

5. Conclusion

- 5.1 The resultant position is an anticipated breakeven position for 2019/20 based on assumptions made regarding the levels of income, expenditure and ability to deliver the assumed efficiencies in the year ahead.
