Budget Summary	15

Background

The Office of the Commissioner for Older People for Northern Ireland (COPNI) was established by the Commissioner for Older People Act (Northern Ireland) 2011, which took effect from January 2011. COPNI is an executive Non-Departmental Public Body (NDPB) sponsored by the Department for Communities (DfC).

Mr. Eddie Lynch, commenced his term as Northern Ireland's second Commissioner for Older People on 14 June 2016. This draft business plan outlines the work planned to be undertaken from April 2017 to March 2018.

Corporate Plan

The emerging Corporate Plan 2016-2020, *Respect, Value and Protect* links directly to the statutory duties and powers of the Commissioner. The Corporate Plan sets out an ambitious programme of work proposed by the Commissioner during his term. These objectives are to:

1. Support our Ageing Population by Promoting Positive Ageing and Ending Age Discrimination
2. Advocate for Better Health and Social Care
3. Tackle Financial Abuse and Scams, Protecting Older Victims of Crime
4. Ensure effective, efficient and economical good practice in corporate governance.

At the time of drafting this business plan, Commissioner Lynch's Corporate Plan is in draft form, having been the subject of N. Ireland-wide engagement with older people. The document is to be submitted to the Minister for Communities for approval (or alternative if the institutions are not re-established). However, recognising the pressure on funding of the Commissioner to deliver such a plan, the Commissioner and Department will have to come to agreement on a baseline budget before the document can be finalised and approved.

Vision

COPNI's vision is that:

“Northern Ireland is a great place to age.”

Purpose

COPNI's purpose is:

“To be an authoritative and independent champion who safeguards and promotes the interests of older people.”

Focus

COPNI's focus for the Commissioner's term of office will be on the following three themes:

Respect, Value and Protect

Respect

- That our society respects older people, the role they play and the contributions they make to society, community and family life.
- That the Government invests in the health and wellbeing of the current and future generations of older people.
- That future generations of older people will see lower levels of chronic illness and disability, reduced pensioner poverty, better protection from abuse, improved health and social care services, and equal and fair treatment.

Value

- That older people will be recognised as individuals who have rights, who have made and continue to make a contribution to our society, and who make choices and decisions about their own lives, preferences, activities and opinions.
- That older people will receive equal opportunities and freedom from discrimination on the basis of their age.
- That older people feel that their contribution to society is recognised and valued.

Protect

- That if older people become vulnerable, the support, services, respect and care they need will be available in ways that help them to live dignified and fulfilled lives through to the end of life.
- That adequate protection and support for vulnerable older people is a priority for our society and is made available to them when they need it.

International Framework

COPNI's work is underpinned by the UN Principles for Older Persons (1991). These international standards are important as COPNI assesses how well public bodies and other organisations deliver services for older people here in Northern Ireland.

Business Plan 2017/18

This business plan sets out the business activities to be taken forward in 2017/18. As with previous business plans, it identifies the key pieces of work to be undertaken and the key targets to be met during the course of the year. The purpose of the business plan is to clearly demonstrate the level of progress required in year towards the achievement of the priority objectives within the appropriate timescales and budget.

As Accounting Officer, responsibility for this business plan rests with the Commissioner. Progress towards the achievement of these targets and objectives will be monitored closely and reported on throughout the business year.

The Commissioner will ensure appropriate monthly, quarterly and annual performance management processes are implemented as necessary.

In the period from December 2016 until March 2017 the Commissioner considered and ultimately commenced the inaugural investigation under sections 4(3) and 4(4) of the Commissioner for Older People Act (Northern Ireland) 2011.

The Commissioner recognised and reported to DfC that initiating an investigation would require significant amendment to the draft business plan previously submitted. This matter has been discussed in-year at accountability meetings. Changes have also been required to the plan due to the current macro political environment, particularly where matters are being delayed by the absence of Ministerial decision.

Resource Assumptions

At the time of drafting, (January 2018), the Department (DfC) has indicated that COPNI's opening allocation is £785k for the 2017/18 Financial Year, however DfC have indicated that they will meet the 4% budget cut pressure in year. This gives COPNI a budget of £817k for 2017-18. DfC have also approved an additional £25k to COPNI to continue with the inaugural use of the Commissioner's investigatory powers and a further £79k to complete the investigation. DfC has also approved an additional bid of £10k resource and £10k capital. DfC reduced depreciation by £1k. This gives a total allocation of £940k for 2017-18. This plan has been updated to include those additions.

The allocation of resources against each objective in the plan represents a proportion of 100% of the overall budget. However, this is a high level plan and is not intended to capture all the operational activities and day-to-day tasks of all staff. COPNI will continue to exercise flexibility around the movement of budget and human resources across the work programme as required. All work will be taken forward with a proportionate project management approach. All expenditure will be made in accordance with internal controls and compliance with the requirements of Managing Public Money NI.

This plan has been updated to demonstrate changes to the priorities of the Commissioner and inform the Department of

- (a) changes to the original plan which was submitted before the increased scope and scale of the investigation into Dunmurry Manor was known,
- (b) the consequent required reduction in the volume of legal casework undertaken and
- (c) reprioritisation of investigatory activity over commissioning expert research and evidence to support statutory advice to government.

Within the allocated budget a number of key statutory duties remain unaffordable. The particular statutory duties further de-prioritised in the plan are;-

- Legal support funding for older people
- Litigation costs for the Commissioner to take legal action on behalf of an older person.
- Costs to support the provision of mediation or alternative dispute resolution services for older people seeking redress from public authorities.

Eddie Lynch

Commissioner & Accounting Officer

Corporate Plan Objective 1: RESPECT

Supporting our Ageing Population – Positive Ageing & Ending Age Discrimination

Ref No.	Project	Statutory Requirement	Aim (Expected impacts)	Lead Officer	Outputs	Key Performance Indicators	Programme Budget
